LAB EXERCISE 5: Lizard Evolution Virtual Lab

Answer the following questions as you finish each module in the virtual lab.

MODULE 1: Introduction

At the beginning of the virtual lab, you were asked to select eight lizards from a category. What criteria did you use to select your lizards?

My criteria were: size, color, and shape of the lizards.

Did your lizards grow different than I did?

Yes, because the lizards that I selected were different in size, color, and shape. I also noticed that some lizards were different in shape and color than others.

An adaptation is a structure or function that the organism has as a response to its environment. Give an example of a structure and a function that is an adaptation. (Provide one example and an explanation of an adaptation in the space below.)

Example: A lizard's skin is a structure that it has as a response to its environment. The skin is a structure that it has as a response to its environment. The skin is a structure that it has as a response to its environment.

Provide one adaptation (structure or function) for each lizard that you selected. (Provide one example and an explanation of an adaptation in the space below.)
