Education in the Kindergarten Josephine Curtis Foster, 1936 Foster and Headley's Education in the Kindergarten Josephine Curtis Foster, Neith Elizabeth Headley, 1966 OEO Pamphlets Economic Opportunity Office, *Music and Play in Early Childhood Education* Fanny M. Y. Chung, 2022-10-11 This book provides critical insights into the interplay of sociocultural change and educational practices by elucidating the trajectory of Hong Kong's early childhood music education system. It presents an extensive analysis of postcolonial music education in relation to globalization, westernization, cosmopolitanism, and nationalization. It makes contributions to the theoretical arguments that can be used to interpret the impact of China on the previously Western orientation of education in Hong Kong. This book also explicitly problematizes the theoretical foundations of mandated policies such as play-based learning and moral education in early childhood through music in Hong Kong and across the globe. The analysis of historical context, political influences, and education ideologies in Hong Kong's early childhood education subsystem provides fertile ground for a thorough understanding of the meaning and implications of globalization in education at multiple levels. Many empirical-based discussions in this book reflect the ideologies, trends, and practices of music education globally. Framed by Bandura's social cognitive theory, the empirical studies discussed in the book explore the self-efficacy and practices of education leaders and teachers reflecting the contemporary challenges of music education. Ultimately, it makes a vital contribution by offering a new conceptual model of music teacher education within a globally resonant framework.
