Targeted Interventions for Student Success in Online Courses Glick, Danny, Cohen, Anat, Chang, Chi, 2020-06-26 Online

learning has increasingly been viewed as a possible way to remove barriers associated with traditional face to face teaching

such as overcrowded classrooms and shortage of certified teachers While online learning has been recognized as a possible

approach to deliver more desirable learning outcomes close to half of online students drop out as a result of student related

course related and out of school related factors e g poor self regulation ineffective teacher student student student and

platform student interactions low household income Many educators have expressed concern over students who

unexpectedly begin to struggle and appear to fall off track without apparent reason A well implemented early warning system

therefore can help educators identify students at risk of dropping out and assign and monitor interventions to keep them on

track for graduation Despite the popularity of early warning systems research on their design and implementation is sparse

Early Warning Systems and Targeted Interventions for Student Success in Online Courses is a cutting edge research

publication that examines current theoretical frameworks research projects and empirical studies related to the design

implementation and evaluation of early warning systems and targeted interventions and discusses their implications for

policy and practice Moreover this book will review common challenges of early warning systems and dashboard design and

will explore design principles and data visualization tools to make data more understandable and therefore more actionable

A Smarter Charter Richard D. Kahlenberg, Halley Potter, 2014-09-19 Moving beyond the debate over whether or not charter schools should exist A Smarter Charter wrestles with the question of what kind of charter schools we should encourage The authors begin by tracing the evolution of charter schools from Albert Shanker's original vision of giving teachers room to innovate while educating a diverse population of students to today's charter schools where student segregation levels are even higher than in traditional public schools In the second half of the book the authors examine two key reforms currently seen in a small but growing number of charter schools socioeconomic integration and teacher voice that have the potential to improve performance and reshape the stereotypical image of what it means to be a charter school
