**Prosper** World Bank, 2015-12-10 Aging is a challenge which countries in East Asia and Pacific EAP regions are grappling with or will soon confront It raises many questions for policymakers ranging from potential macroeconomic impacts to fiscal challenges of supporting pension health and long term care systems and labor market implications as countries seek to promote productive aging The urgency of the aging challenge varies across the region but it will confront all EAP countries in time and early preparation is essential to avoid the missteps of other regions Live Long and Prosper discusses the societal and public policy challenges and reform options for EAP countries as they address aging It aims to strike a balance between aging optimists and pessimists On the one hand the impacts of aging on growth labor markets and public spending are not

the unavoidable catastrophe often feared. However, minimizing the downside risks of aging and ensuring healthy and productive aging will require proactive public policy, political leadership, and new mindsets across society. The report reviews the evidence on demographic transition in EAP and its potential macroeconomic impact. It addresses the current policy environment, including pensions and social security, health and long-term care, and labor markets, to assess the risks of business as usual. It also suggests policy directions to promote healthy and productive aging in EAP and emphasizes that aging is not just about older people but requires policy and behavioral change across the life cycle. The Heavens Are Telling the Glory of God Laurie Brink, OP, 2022. Building on the work of Teilhard de Chardin, the New Cosmology integrates scientific facts and theories, including discoveries about the expanding universe and evolution, and proposes that creation is developing into greater complexity. But how are we to understand concepts like original sin and redemption if creation isn't complete and humanity is still in process? How does one retrofit religious tradition and Scripture into this scenario? Is there room for the historical Jesus in the New Cosmology? While a ready concern for all Christians, this question has unique implications for women religious whose lives are centered on the person and mission of Jesus Christ. How is a Catholic sister to understand her vows of poverty, chastity, and obedience in light of a cosmology in which the need for redemption and the role of Jesus are significantly redefined? *The Heavens Are Telling the Glory of God* probes these questions and offers possible answers. Beginning with the experiences of women religious and their encounter with the New Cosmology or Universe Story, this book seeks to mediate among the various perspectives and proposes how informed and reflective engagement with science, tradition, and theology can bridge the generational divides and foster a spirituality that is both emergent and incarnational. **The Invention of the Modern Dog** Michael Worboys, Julie-Marie Strange, Neil Pemberton, 2018-10-15 The story of the thoroughly Victorian origins of dog breeds For centuries different types of dogs were bred around the world for work sport or companionship But it was not until Victorian times that breeders started to produce discrete differentiated standardized breeds In *The Invention of the Modern Dog* Michael Worboys Julie Marie Strange and Neil Pemberton explore when where why and how Victorians invented the modern way of ordering and breeding dogs Though talk of breed was common before this period in the context of livestock the modern idea of a dog breed defined in terms of shape size coat and color arose during the Victorian period in response to a burgeoning competitive dog show culture The authors explain how breeders exhibitors and showmen borrowed ideas of inheritance and pure blood as well as breeding practices of livestock horse poultry and other fancy breeders and applied them to a species that was long thought about solely in terms of work and companionship The new dog breeds embodied and reflected key aspects of Victorian culture and they quickly spread across the world as some of Britain's top dogs were taken on stud tours or exported in a growing international trade Connecting the emergence and development of certain dog breeds to both scientific understandings of race and blood as well as Britain's posture in a global empire *The Invention of the Modern Dog* demonstrates that studying dog breeding cultures allows historians to better understand the complex social relationships of late nineteenth century Britain

Digital Diplomacy Corneliu Bjola, Marcus Holmes, 2015-03-24 This book analyses digital diplomacy as a form of change management in international politics The recent spread of digital initiatives in foreign ministries is often argued to be nothing less than a revolution in the practice of diplomacy In some respects this revolution is long overdue Digital technology has changed the ways firms conduct business individuals conduct social relations and states conduct governance internally but states are only just realizing its potential to change the ways all aspects of interstate interactions are conducted In particular the adoption of digital diplomacy i.e. the use of social media for diplomatic purposes has been implicated in changing practices of how diplomats engage in information management public diplomacy strategy planning international negotiations or even crisis management Despite these significant changes and the promise that digital diplomacy offers little is known from an analytical perspective about how digital diplomacy works This volume the first of its kind brings together established scholars and experienced policy makers to bridge this analytical gap The objective of the

book is to theorize what digital diplomacy is assess its relationship to traditional forms of diplomacy examine the latent power dynamics inherent in digital diplomacy and assess the conditions under which digital diplomacy informs regulates or constrains foreign policy Organized around a common theme of investigating digital diplomacy as a form of change management in the international system it combines diverse theoretical empirical and policy oriented chapters centered on international change This book will be of much interest to students of diplomatic studies public diplomacy foreign policy social media and international relations Urban Animals Tora Holmberg,2015-03-27 The city includes opportunities as well as constraints for humans and other animals alike Urban animals are often subjected to complaints they transgress geographical legal as and cultural ordering systems while roaming the city in what is often perceived as uncontrolled ways But they are also objects of care conservation practices and bio political interventions What then are the more than human experiences of living in a city What does it mean to consider spatial formations and urban politics from the perspective of human animal relations This book draws on a number of case studies to explore urban controversies around human animal relations in particular companion animals free ranging dogs homeless and feral cats urban animal hoarding and crazy cat ladies The book explores zoocities the theoretical framework in which animal studies meet urban studies resulting in a reframing of urban relations and space Through the expansion of urban theories beyond the human and the resuscitation of sociological theories through animal studies literature the book seeks to uncover the phenomenon of humanimal crowding both as threats to be policed and as potentially subversive In this book a number of urban controversies and crowding technologies are analysed finally pointing at alternative modes of trans species urban politics through the promises of humanimal crowding of proximity and collective agency The exclusion of animals may be an urban ideology aiming at social order but close attention to the level of practice reveals a much more diverse disordered and perhaps disturbing experience
