

CHAPTER 16

World War II, 1939–1945

Previewing Main Ideas

EMPIRE BUILDING Germany, Italy, and Japan tried to build empires. They began their expansion by conquering other nations and dominating them politically and economically.

Geography What areas did the Axis powers control at the height of their power?

SCIENCE AND TECHNOLOGY Far-reaching developments in science and technology changed the course of World War II. Improvements in aircraft, tanks, and submarines and the development of radar and the atomic bomb drastically altered the way wars were fought.

Geography Why might submarines have been a key weapon for the Axis powers in their fight against Great Britain?

ECONOMICS Fighting the Axis terror weakened the economies of Great Britain, the Soviet Union, and other European countries. In contrast, when the United States entered the war, its economy grew sharply. The strength of the American economy bolstered the Allied war effort.

Geography In terms of location, why was the American economy able to function at a high level while the European economies struggled?

Schoenberg, 1964 *Remaking the Modern World 1900 - 2015* C. A. Bayly, 2018-10-22 The sequel and companion volume to C A Bayly's ground breaking *The Birth of the Modern World 1780 1914* this wide ranging and sophisticated study explores global history since the First World War offering a coherent comparative overview of developments in politics economics and society at large Written by one of the leading historians of his generation an early intellectual leader in the study of World History Weaves a clear narrative history that explores the themes of politics economics social cultural and intellectual life throughout the long twentieth century Identifies the themes of state capital and communication as key drivers of change on a global scale in the last century and explores the impact of those ideas Interrogates whether warfare was really the pre eminent driving force of twentieth century history and what other ideas shaped the course of history in this period Explores the causes behind the resurgence of local conflict rather than global scale conflict in the years since the turn of the millennium Delves into the narrative of inequality a story that has shaped and been shaped by the events of the last hundred years Part of The Blackwell History of the World Series The goal of this ambitious series is to provide an accessible source of knowledge about the entire human past for every curious person in every part of the world It will comprise some two dozen volumes of which some provide synoptic views of the history of particular regions while others consider the world as a whole during a particular period of time The volumes are narrative in form giving balanced attention to social and cultural history in the broadest sense as well as to institutional development and political change Each provides a systematic account of a very large subject but they are also both imaginative and interpretative The Series is intended to be accessible to the widest possible readership and the accessibility of its volumes is matched by the style of presentation and production On Politics: A History of Political Thought: From Herodotus to the Present Alan Ryan, 2012-10-22 Finally in a one volume paperback edition *On Politics* is one of the most ambitious and hugely readable histories of political philosophy in nearly a century Praised widely upon hardcover publication Alan Ryan's masterpiece David Ulin Los Angeles Times blends history and philosophy to examine three thousand years of political thought Drawing on three decades of research Ryan insightfully traces the origins of political philosophy from the ancient Greeks to the present and evokes the lives and minds of our greatest thinkers in a way that makes reading about them a remarkable experience Jeremy Waldron New York Review of Books Whether writing about Plato or Augustine Tocqueville or Jefferson Ryan illuminates John Dewey's dictum that the role of philosophy is less to see truth than to enhance life With this epic John Keane Financial Times tour de force Ryan affirms his

place as one of the most influential political philosophers of our time Johann Gottfried Herder on World History: An Anthology Michael Palma, Johann Gottfried Herder, Hans Adler, Ernest A. Menze, 2015-06-01 Johann Gottfried Herder 1744-1803 was an influential German critic and philosopher whose ideas included cultural nationalism that every nation has its own personality and pattern of growth This anthology contains excerpts from Herder's writings on world history and related topics **Science and Technology in World History, Volume 4** David Deming, 2016-04-05 The history of science is a story of human discovery intertwined with religion philosophy economics and technology The fourth in a series this book covers the beginnings of the modern world when 16th century Europeans began to realize that their scientific achievements surpassed those of the Greeks and Romans Western Civilization organized itself around the idea that human technological and moral progress was achievable and desirable Science emerged in 17th century Europe as scholars subordinated reason to empiricism Inspired by the example of physics men like Robert Boyle began the process of changing alchemy into the exact science of chemistry During the 18th century European society became more secular and tolerant Philosophers and economists developed many of the ideas underpinning modern social theories and economic policies As the Industrial Revolution fundamentally transformed the world by increasing productivity people became more affluent better educated and urbanized and the world entered an era of unprecedented prosperity and progress **Worldmaking** Tom Clark, Emily Finlay, Philippa Kelly, 2017-01-19 In 1978 Nelson Goodman explored the relation of worlds to language and literature formulating the term worldmaking to suggest that many other worlds can as plausibly exist as the world we know right now We cannot catch or know the world as such all we can catch are the world versions descriptions views or workings of the world that are expressed in symbolic systems words music dancing visual representations Over the twenty five years since then creative works have played a crucial role in realigning reshaping and renegotiating our understandings of how worlds can be made and preserved in the face of globalizing trends The volume is divided into three sections each engaging with worlds as malleable constructs Central to all of the contributions is the question how can we understand the relationships between natural political cultural fictional literary linguistic and virtual worlds and why does this matter *Understanding the Global Experience* Thomas Arcaro, Rosemary Haskell, Chinedu Eke, Robert Anderson, Stephen Braye, Ann Cahill, Brian Digre, Anne Bolin, Mathew Gendle, Duane McClearn, Jeffrey Pugh, Laura Roselle, Jean Schwind, Kerstin Sorensen, Anthony Weston, 2016-03-22 First Published in 2016 In this anthology of essays for Global Studies students the editors hope to encourage readers to live intelligent and thoughtful lives not only as citizens of their native countries but also as citizens of the world Cultural Change in Modern World History Peter N. Stearns, 2018-12-13 In this innovative textbook leading world historian Peter Stearns analyses key examples of culture change from around the world highlighting what culture change involves and how it can be explained and assessed both historically and in the contemporary world Culture change is one of the most interesting and significant features of human society but until now there has been no book for the classroom

which looks explicitly at this phenomenon Cultural Change in Modern World History covers different kinds and levels of culture change since 1500 from colonial culture contact in British India to modernization in Meiji Japan and changing attitudes towards gay marriage in the past decade considering how we should define culture change how to deal with causation and how to evaluate continuities and consequences Stearns addresses fundamental questions why do groups of people change their beliefs and values and what happens when they do Conversely why do some groups resist culture change and how do some manage to combine novel and more traditional cultural components Figuring out how better to understand why groups or societies change their minds or refuse to do so provides a crucial perspective on human behaviors and values As the first book to explore this important question Cultural Change in Modern World History is a ground breaking text for students of world history cultural history and anthropology
