Scouts Out! The Development Of Reconnaissance Units In Modern Armies [Illustrated Edition] John J.

McGrath, 2014-08-15 Illustrated with 60 maps plans and diagrams Reconnaissance and counter reconnaissance are battlefield missions as old as military history itself and missions for which many armies have created specialized units to perform In most cases these units were trained equipped and used differently from the majority of an army s fighting units Horse cavalry performed these missions for centuries for it had speed and mobility far in excess of main battle units Once the horse was replaced by mechanization however the mobility advantage once enjoyed by the horse cavalry disappeared Since the early 20th century the search for the proper mix of equipment the proper organization and the proper employment of reconnaissance units has bedeviled armies around the world This survey uses a diverse variety of historical cases to illustrate the enduring issues that surround the equipping organizing and employment of reconnaissance units It seems that these specialized units are either too heavily or too lightly equipped and too narrowly specialized or too conventionally organized Pre war reconnaissance doctrines tend to undergo significant change once fighting begins leading to post conflict analysis that reconnaissance units were misused in one way or another McGrath ends his study with an intriguing conclusion about the role that specialized reconnaissance units should have in the future that may surprise many readers The Violet **Child of Arcadia** Vasco, 2023-04-27 Reprint of the original first published in 1872 An Exposition of Fallacies in the Hypothesis of Mr. Darwin Charles Robert Bree, 1872 Hours of exercise in the Alps.
