Electron Structure of the Elements

Electron Mass & Ionisation Energies

The mass of electrons is so small that the ionising energy of protons can be considered without consideration of mass.

1. Equal volumes of gases contain the same number of molecules at the same pressure and temperature.
2. Electron gases characterised gases are characterised from gases in the atmosphere.

How does ionisation energy vary with atomic number? Is it possible that there are elements of varying ionisation energy? How does ionisation energy vary with atomic number? Is it possible that there are elements of varying ionisation energy? How does ionisation energy vary with atomic number? Is it possible that there are elements of varying ionisation energy?

The probability of finding an electron in a given volume is proportional to the square of the wave function.
