

Momentum

- when obj. of different masses travel w/ same velocity, heavier obj. is harder to stop; same mass, diff velocity \rightarrow faster \vec{v} harder to stop

Momentum (p): $\vec{p} = m\vec{v}$; vector quantity

* $\text{kg} \cdot \text{m/s}$

Impulse-momentum equation

- change in momentum: $\vec{p}_0 + \Delta\vec{p} = \vec{p}_f$ ($\Delta\vec{p} = \vec{p}_f - \vec{p}_0$)
- $\Delta\vec{p}$ is related to external force (NtL)

$$\begin{aligned}\vec{F} &= m\vec{a} \\ \vec{F} &= m\left(\frac{\Delta\vec{v}}{\Delta t}\right) = m\left(\frac{\vec{v}_f - \vec{v}_0}{\Delta t}\right) \\ \vec{F}\Delta t &= m\vec{v}_f - m\vec{v}_0 = \vec{p}_f - \vec{p}_0 \\ \vec{F}\Delta t &= \Delta\vec{p}\end{aligned}$$

change in momentum = Impulse $\rightarrow \vec{F}\Delta t = \Delta\vec{p} = \vec{I}$

* vector
N \cdot s, $\text{kg} \cdot \text{m/s}$

effect of collision time on force

Impulse = $F\Delta t$ (avg force)

- Force is inversely proportional to Δt

ex. car air bags

- NtL prevents passengers from striking dashboard/window

- CAB increases time, dec force
- \rightarrow if \vec{p} is constant (final $\vec{v} = 0$)

$$\vec{F} = \frac{\Delta\vec{p}}{\Delta t}$$

ex. hitting a baseball (\vec{F} fixed)

- wants largest \vec{p} (flies off fast)
- max time of contact

 schizophrenia etc could show up as a disease on surface they mean nothing else except there is something wrong in one's
 mind As to what is wrong it is really hard for ordinary people to know as often the problem is lurking in subconscious mind
 which is beyond one's recognition Human as a species has existed for quite a long and long time and established various
 mechanisms to cope with major disasters and conflicts When one is facing powerful disaster and could not do anything about
 it the problem would fade into subconscious mind of the person as it is a survival mechanism for the individual and the
 species otherwise the person involved could not survive the disaster Unawareness does not mean the problem is gone and it
 would not affect the life and work of the individual When condition is right the unsolved problem or conflict would show up as
 various illnesses At that point psychological counseling comes to play a significant role as at the moment we still lack of basic
 understanding of mind and its working mechanism though medicine has already made quite a progress Through
 psychological counseling the potential problem could be found the unreleased anger or fear or stress could be released thus
 the person could walk on a road of recovery Traditional psychological counseling based on communication between the client
 and the counselor in this book a new method with a name of Image Arrangement is developed based on Family Constellations
 of Bert Hellinger which could act as an X ray machine of mind to uncover the potential problems in subconscious mind
 without reliance on group activities or small things as representatives in one's subconscious mind At the same time based on
 their practices the authors develop 21 sets of golden sentences for curing to write and recite in one's heart to solve twenty
 one common psychological problems Of course there will be a huge difference in the effects under the guide of a counsellor
 and by oneself with the method Thus if possible one should seek professional help to achieve maximal effect Through Image
