Embroideries Marjane Satrapi:

Embroideries Marjane Satrapi, 2005 From the author of the acclaimed comic strip autobiography *Persepolis* comes this comic book for grown ups a gloriously entertaining and revealing look into the sex lives of Iranian women *Embroideries* gathers together many of the women in Marjane Satrapi's life her beloved grandmother her mother an eccentric aunt their friends and neighbours for an afternoon of tea drinking and talking And as is only to be expected when a group of women reunite around cups of tea the subjects turn to love sex and the vagaries of men in this case Iranian men As the afternoon progresses these colourful women share their secrets about among other things how to fake your virginity how to escape the husband your family has chosen for you how to enjoy the miracles of plastic surgery and how to take advantage of being someone's mistress By turns revealing and hilarious these are stories about the lengths to which some women will go to find a man to keep a man or just to keep up appearances We also witness tearful confessions and heavy hearted tales of regret and betrayal of unhappy marriages and of young women forced or choosing to marry for all the wrong reasons of their suffering is due to a culture that prizes men above women and makes a woman's worth dependent on her virginity Full of surprises this introduction to the private lives of some very interesting ordinary women also demonstrates brilliantly how much women the world over have in common

Invisibility in Visual and Material Culture Asbjørn Grønstad, Øyvind Vågnes, 2019-06-01 The essays in *Invisibility in Visual and Material Culture* contribute pioneering and revelatory insights into the phenomenon of invisibility forging new and multi disciplinary approaches at the intersection of aesthetics technology representation and politics Importantly they acknowledge the complex interaction between invisibility and its opposite visibility arguing that the one cannot be fully grasped without the other Considering these entanglements across different media forms the chapters reveal that the invisible affects many cultural domains from digital communication and operative images to the activism of social movements as well as to identity race gender and class issues Whether the subject is comic books photographic provocations biometric and brainwave sensing technologies letters or a cinematic diary the analyses in this book engage critically and theoretically with the topic of invisibility and thus represent the first scholarly study to identify its importance for the field of visual culture

Graphic Medicine Manifesto MK Czerwiec, Ian Williams, Susan Merrill Squier, Michael J. Green, Kimberly R. Myers, Scott T. Smith, 2020-05-18 This inaugural volume in the *Graphic Medicine* series establishes the principles of graphic medicine and begins to map the field The volume combines scholarly essays by members of the editorial team with previously unpublished visual narratives by Ian Williams and MK Czerwiec and it includes arresting visual work from a wide range of graphic medicine practitioners The book's first section featuring essays by Scott Smith and Susan Squier argues that as a new area of scholarship research on graphic medicine has the potential to challenge the conventional boundaries of academic disciplines raise questions about their foundations and reinvigorate literary scholarship and the notion of the literary text for a broader audience The second section incorporating essays by Michael Green and

Kimberly Myers demonstrates that graphic medicine narratives can engage members of the health professions with literary and visual representations and symbolic practices that offer patients family members physicians and other caregivers new ways to experience and work with the complex challenges of the medical experience The final section by Ian Williams and MK Czerwicz focuses on the practice of creating graphic narratives iconography drawing as a social practice and the nature of comics as visual rhetoric A conclusion in comics form testifies to the diverse and growing graphic medicine community Two valuable bibliographies guide readers to comics and scholarly works relevant to the field

Reading Women's Worlds from Christine de Pizan to Doris Lessing S. Jansen, 2011-04-25 In this work Jansen explores a recurring theme in writing by women the dream of finding or creating a private and secluded retreat from the world of men These imagined women s worlds may be very small a single room for example but many women writers are much more ambitious fantasizing about cities even entire countries created for and inhabited exclusively by women
