Trade and Finance in Portuguese India Celsa Pinto,1994 This work marks a sharp departure from the predominant Eurocentric emphasis in Indo Portuguese studies on the sixteenth century Portuguese trade in the Carreira da India Such an approach unjustly dismisses the subsequent centuries as periods of no commercial consequence to the Estado da India and Portugal and relegates to an un important level the significance of the privately operated intra Asian trade The evidence gathered and their argument of this book challenges such prevailing stereo types Based on a wide range on archival sources in India Portugal and England this study unravels the existence of a thriving native operated country trade in the splendid and the trifling that emanated from Portuguese India in the late eighteenth and early nineteenth centuries It not only took advantage of the vulnerability displayed and the animation efforts undertaken by the Estado da India and the metropolis but also learned to function through crevices under the growing British hegemony
