Life in a Coroner's Office chronicles the exploits of a diverse team of investigators at a coroner's office in Pittsburgh. Ed Strimlan is a doctor who never got to practice medicine. Instead, he discovers how people died. Mike Chichwak is a stolid ex-paramedic respected around the office for his compassion and doggedness. Tiffani Hunt is twenty-one, a single mother who questions whether she wants to spend her nights around dead bodies. All three deputy coroners share one trait: a compulsive curiosity. A good thing too, because any observation at a death scene can prove meaningful. A bag of groceries standing on a kitchen counter, the milk turning sour, a broken lamp lying on the carpet of an otherwise tidy living room. When they approach a corpse, the investigators consider everything: Is the victim face up or down? How stiff are the limbs? Are the hands dirty or clean? By the time they bag the body and load it into the coroner's wagon, Tiffani, Ed, and Mike have often unearthed intimate details that are unknown even to the victim's family and friends. The intrigues of investigating death help make up for the bad parts of the job. There are plenty of burdens: grief-stricken families, decomposed bodies, tangled local politics, and gore. And maybe worst of all is the ever-present reminder of mortality and human frailness. *Deadhouse* also chronicles the evolution of forensic medicine from early rituals performed over corpses found dead to the controversial advent of modern forensic pathology. It explains how pathologists read bullet wounds and lacerations, how someone dies from a drug overdose or a motorcycle crash or a drowning, and how investigators uncover the clues that lead to the truth. *Crimson Angels* Susan Turner, 2001-07 *Crimson Angels* is a must-read for anyone interested in international adoption. The story will take the reader along the process. However, the ending may surprise you. Sometimes things don't always happen the way they should.
