

## TRANSPULS SYNERGIC 2700

WITH MAG-TEC TIG & microelectrode (MMA) welding

**DIGITAL  
REVOLUTION**

### GENERAL REMARKS

#### A HIGH-PERFORMANCE SYSTEM

The TPS 2700 is a very special power source indeed. It is totally digitised, so it delivers high-precision welding results. Its "synergic mode" makes it extremely simple to operate. Weighing only 27 kg, it is portable and suitable for any type of on-site/maintenance use, thanks also to its integral wirefeed drive. What's more, it comes with just the right accessories for every possible application, from torches to cooling units to remote-control units. All exactly fine-tuned to the capabilities of the power source, and optimised as a complete overall system.

### UTILISATION

#### VERSATILE PROFESSIONALS

The TPS 2700 machines offer an amazingly wide spectrum of possible applications. This is partly because of their portability, which makes them so ideal for the construction site, the workshop, and for repair and maintenance work. It is also due to their multiprocess capability – which means that you can weld using any welding process, be it MIG/MAG, TIG or MMA, all with one and the same machine. Another reason is that there are so many different versions of the machine for you to choose from.
