Daley, 2013 Print CourseSmart **Psychiatric Nursing - Principles, Practice and Clinical Management** Mr. Rohit Manglik, 2024-04-24 Provides principles therapeutic approaches and clinical management strategies in mental health nursing care **South African Health Review** ,1996 **A World of Their Own** Meghan Healy-Clancy, 2014-06-19 The politics of black education has long been a key issue in southern African studies but despite rich debates on the racial and class dimensions of schooling historians have neglected their distinctive gendered dynamics A World of Their Own is the first book to explore the meanings of black women s education in the making of modern South Africa Its lens is a social history of the first high school for black South African women Inanda Seminary from its 1869 founding outside of Durban through the recent past Employing diverse archival and oral historical sources Meghan Healy Clancy reveals how educated black South African women developed a tradition of social leadership by both working within and pushing at the boundaries of state power She demonstrates that although colonial and apartheid governance marginalized women politically it also valorized the social contributions of small cohorts of educated black women This made space for growing numbers of black women to pursue careers as teachers and health workers over the course of the twentieth century After the student uprisings of 1976 as young black men increasingly rejected formal education for exile and street politics young black women increasingly stayed in school and cultivated an alternative form of student politics Inanda Seminary students experiences vividly show how their academic achievements challenged the narrow conceptions of black women s social roles harbored by both officials and black male activists By the transition to democracy in the early 1990s black women outnumbered black men at every level of education introducing both new opportunities for women and gendered conflicts that remain acute today Introduction to Health Services Management S. W. Booyens, 2008 Ideal for all students studying first level health services management this invaluable all in one resource describes the environmental factors that affect health services policy and planning the organization of services at the macro and micro level and other issues such as staff absenteeism and management Nurses on the Move Mireille Kingma, 2006 The

personal stories of migrant nurses that fill this book contrast the nightmarish existences of some with the successes of others Kingma presents a new way to think about the migration of skilled health sector labour as well as strategies needed to make migration work for all concerned

Compensation Schemes for Damages Caused by Healthcare and Alternatives to Court Proceedings Dobrochna Bach-Golecka, 2021-05-16 The book discusses compensation mechanisms and other non judicial means that offer alternatives to court proceedings designed and provided for within national legal regimes Such schemes are primarily of a civil or administrative character and are mainly intended to supplement criminal liability for medical negligence As such the book focuses on medical malpractice and prospective medical harm from a civil law perspective It examines the contemporary perspective of a patient physician relationship which has evolved from a relation of a quasi patrimonial character into a partnership of quasi equal parties dealing with a medical treatment procedure as a scientific endeavor It also reviews the extra legal conditions that are taken into account in compensation arrangements particularly the need to satisfy a psychological urge for conciliation and empathy on the part of medical personnel Lastly the book explores the responsibility of public authorities and healthcare providers to guarantee access to healthcare that is of a sufficient quality based upon standards provided for in international and European law

Childbirth, Vulnerability and Law Camilla Pickles, Jonathan Herring, 2019-08-23 This book is inspired by a statement released by the World Health Organization directed at preventing and eliminating disrespectful and abusive treatment during facility based childbirth Exploring the nature of vulnerability during childbirth and the factors which make childbirth a site for violence and control the book looks at the role of law in the regulation of professional intervention in childbirth The WHO statement and other published work on mistreatment obstetric violence birth trauma birth rape and dehumanised care all point to the presence of vulnerability violence and control in childbirth This collected edition explores these issues in the experience of those giving birth and for those providing obstetric services It further offers insights regarding legal avenues of redress in the context of this emerging area of concern Using violence vulnerability and control as a lens through which to consider multiple facets of the law the book brings together innovative research from an interdisciplinary selection of authors The book will appeal to scholars of law and legal academics specifically in relation to tort criminal law medical law and human rights It will also be of interest to postgraduate scholars of medical ethics and those concerned with gender studies more broadly
