Resources in Education ,1998 *14-19 diplomas* Great Britain: Parliament: House of Commons: Education and Skills Committee,2007-05-17 In October 2004 the Tomlinson report downloadable at <http://www.dfes.gov.uk/1419documents/FinalReport.pdf> set out wide ranging proposals for changes to the curriculum and examination arrangements for the education of 14 to 19 year olds In February 2005 the Government published its response in the form of a White Paper Cm 6476 ISBN 9780101647625 detailing a 10 year reform programme including the introduction of 14 new awards originally called vocational Diplomas thus rejecting the overarching Diploma award recommended in the Tomlinson report Whilst stating its belief that the proposed changes would have been better structured and more coherent had Tomlinson s proposals been adopted the Committee s report examines the design development and implementation of the Government s Diplomas scheme Whitaker's Books in Print ,1998 *Educating Tomorrow's Engineers* Great Britain: Parliament: House of Commons: Science and Technology Committee,2013-02-08 In the UK we teach young people to become computer users and consumers rather than programmers and software engineers This is creating a chronic skills gap in ICT We need around 82 000 engineers and technicians just to deal with retirements up to 2016 and 830 000 SET professionals by 2020 On the plus side the Government s proposal to include computer science as a fourth science option to count towards the EBac is welcomed The Committee also welcomes the EBac s focus on attainment of mathematics and science GCSEs but is concerned that subjects such as Design and Technology D T might be marginalised A Technical Baccalaureate TechBac is being designed but if it is to be a success schools should be incentivised to focus on the TechBac by making it equivalent to the EBac Reforms to vocational education following the Wolf Review meant that Level 2 of the Engineering Diploma a qualification highly regarded would count as equivalent to one GCSE despite requiring curriculum time and effort equivalent to several GCSEs The Engineering Diploma however is currently being redesigned as four separate qualifications The Committee also expressed concerns over the Department for Education s DfE lack of clarity on its research budget and use of evidence in decision making The DfE needs to place greater focus on gathering evidence before changes to qualifications are made and must leave sufficient time for evidence to be gathered on the effectiveness of policies before introducing further change The possibility of gathering evidence from randomised controlled trials RCTs should be seriously considered **The British National Bibliography** Arthur James Wells,2003 **AQA Foundation** ,2002 Developed for the AQA Specification revised for the new National Curriculum and the new GCSE specifications The Teacher File contains detailed support and

guidance on advanced planning points of emphasis key words notes for the non specialist useful supplementary ideas and homework sheets Educational Research for Social Justice Alistair Ross, 2021-06-22 This book presents a series of analyses of educational policies largely in the UK but some also in Europe researched by a team of social scientists who share a commitment to social justice and equity in education We explore what social justice means in educational policy and practice and how it impacts on our understanding of both educational science and the public good Using a social constructivist approach the book argues that social justice requires a particular and critical analysis of the meaning of meritocracy and of the way this term turns educational policies towards treating learning as a competition in which many young people are constructed as losers We discuss how many terms in education are essentialised and have specific and different meanings for particular social groups and how this may create issues in both quantitative survey methods and in determining what is the public good We discuss social justice across a range of intersecting social characteristics including social class ethnicity and gender as they are applied across the educational policy spectrum from early years to postgraduate education We examine the ways that young people construct their identities and the implications of this for understanding the public good in educational practice We consider the responsibilities of educational researchers to acknowledge these issues and offer examples of researching with such a commitment We conclude by considering how educational policy might contribute to a socially just equitable and inclusive public good
