The Knowledge Gap Natalie Wexler, 2019-08-06 Essential reading for teachers education administrators and policymakers alike STARRED Library Journal The untold story of the root cause of America's education crisis It was only after years within the education reform movement that Natalie Wexler stumbled across a hidden explanation for our country's frustrating lack of progress when it comes to providing every child with a quality education The problem wasn't one of the usual scapegoats lazy teachers shoddy facilities lack of accountability It was something no one was talking about the elementary school curriculum's intense focus on decontextualized reading comprehension skills at the expense of actual knowledge In the tradition of Dale Russakoff's *The Prize* and Dana Goldstein's *The Teacher Wars* Wexler brings together history research and compelling characters to pull back the curtain on this fundamental flaw in our education system one that fellow reformers journalists and policymakers have long overlooked and of which the general public including many parents remains unaware But *The Knowledge Gap* isn't just a story of what schools have gotten so wrong it also follows innovative educators who are in the process of shedding their deeply ingrained habits and describes the rewards that have come along students who are not only excited to learn but are also acquiring the knowledge and vocabulary that will enable them to succeed If we truly want to fix our education system and unlock the potential of our neediest children we have no choice but to pay attention *Birkbeck* Joanna Bourke, 2022 In 2023 Birkbeck University of London celebrates 200 years of educating working people in central London It was founded in 1923 as the London Mechanics Institution and from its inception was a pioneering and radical institution This history is animated by the conviction that Birkbeck is its people Their thoughts and ambitions hopes and dreams labour and laughter are what this book describes celebrates and occasionally laments It explores the history of education as well as the history of place politics radicalism class race gender disciplinarity theatre food leisure war and everyday encounters Most of all this book is about ideas What does it mean to be educated How have these meanings changed over time What makes Birkbeck students unique What does it mean to be fully human exploiting our faculties in order to become better people **The National Union Catalog, Pre-1956 Imprints** Library of Congress, American Library Association.
