

# SALVIA

## WHAT IS IT

Salvia divinorum, commonly known as salvia, is a plant that is native to South and Central America. When it is chewed, smoked, or brewed into a tea it produces psychoactive effects. In its native countries, the plant is used in spiritual ceremonies and practices.

*Salvia may be referred to by several different street names, such as:*

- Sage of the seers
- Diviner's mint
- Diviner's sage
- Sally-D

## SALVIA ABUSE

Salvia usually comes in the form of a green plant, however, it comes in the form of a tea in most spiritual practices. When abused, people will typically smoke or chew the dried leaves.

People who smoke the drug report a short-lived high that is somewhat similar to, but more intense than, **marijuana**.

*The effects of salvia may last for up to 20 minutes when smoked*

People who swallow salvia, on the other hand, may experience visual hallucinations.

*The effects of salvia may last for 1-2 hours if swallowed*
