**The Routledge Handbook of Digital Literacies in Early Childhood** Ola Erstad,Rosie Flewitt,Bettina Kümmerling-Meibauer,Íris Susana Pereira,2019-07-05 As fast evolving technologies transform everyday communication and literacy practices many young children find themselves immersed in multiple digital media from birth Such rapid technological change has consequences for the development of early literacy and the ways in which parents and educators are able to equip today s young citizens for a digital future This seminal Handbook fulfils an urgent need to

consider how digital technologies are impacting the lives and learning of young children and how childhood experiences of using digital resources can serve as the foundation for present and future development. Considering children aged 0-8 years, chapters explore the diversity of young children's literacy skills, practices and expertise across digital tools, technologies and media in varied contexts, settings and countries. The Handbook explores six significant areas. Part I presents an overview of research into young children's digital literacy practices touching on a range of theoretical, methodological and ethical approaches. Part II considers young children's reading, writing and meaning making when using digital media at home and in the wider community. Part III offers an overview of key challenges for early childhood education presented by digital literacy and discusses political positioning and curricula. Part IV focuses on the multimodal and multi-sensory textual landscape of contemporary literary practices and how children learn to read and write with and across media. Part V considers how digital technologies both influence and are influenced by children's online and offline social relationships. Part VI draws together themes from across the Handbook to propose an agenda for future research into digital literacies in early childhood. A timely resource identifying and exploring pedagogies designed to bolster young children's digital and multimodal literacy practices, this key text will be of interest to early childhood educators, researchers and policy makers.

**Meeting the Early Learning Goals Through Role Play** Marie Aldridge, 2019-09-16. This book offers step-by-step guidance to help busy practitioners create meaningful role play that will delight young children, enhance learning and link to the Early Learning Goals. The role play scenarios have been carefully created so that children can identify with them and will be excited and eager to join in. They give children the opportunity to play freely to discover and develop at their own pace and to link directly to the Early Learning Goals and beyond. This book shows practitioners exactly how to plan, organize and implement role play activities. The activities have been tried, tested and enjoyed in the busy nursery where the author works. The book also divides the play scenarios into the DfES stated area of learning: personal, social, emotional, communication, language and literacy, mathematical, knowledge of the world, creative and physical, allowing practitioners to choose activities to suit their needs. The book includes step-by-step guidance, photographs and plans, a list of easily obtained and inexpensive play equipment and a planning template for practitioners to develop their own ideas. It should prove useful to teachers and assistants from nursery classes up to key stage 1.

**Primary Writing: ,2005** **Continuous Provision - Personal and Thinking Skills** Claire Hewson, 2021-10-11. As a dedicated practitioner, you want the very best for your children. You want them to grow up healthy, happy, self-reliant and confident in their abilities. That is why it is vital that personal and thinking skills underpin every aspect of the early years foundation stage. Personal skills enable children to manage stress, to bounce back after difficulties, to understand that mistakes are important for learning and to communicate and cooperate with others. Thinking skills are about making decisions, solving problems systematically and thinking critically. Continuous Provision: Personal and Thinking Skills gives practical guidance on how to further children's personal and thinking skills as you play with them so that they continue

to develop their abilities when you are not present It includes Focused sections with a clear breakdown of personal and thinking skills so that you have the knowledge and confidence to promote children s development Open ended questions to further each specific skill as well as practical challenges to enrich children s learning experiences Activity ideas and photocopiable resources to help you plan for continuous provision Ideal for practitioners who work with children aged from 30 months onwards      **Bulletin** Michigan.
