

A black and white photograph of a person standing on a beach, looking out at the ocean. The sky is filled with dramatic, swirling clouds, and a bright, glowing light source, possibly the sun or moon, is visible on the horizon, creating a strong reflection on the water and sand. The overall mood is contemplative and evocative.

*Imagined China* Wang Haizhou, 2022-05-23 This book explores how Chinese films constructed an image of China in the 1980s through analyzing the characters' composition of space and conflict patterns of the films. It also examines the relationship between the representations in Chinese cinema and the realities of Chinese society. The study analyzes the imagery, metaphors, and cultural values of Chinese films in the 1980s to discover the common creative focus of Chinese film directors at the time. It also examines the specific creative elements and cultural significance of Chinese cinema in the 1980s. This book is neither a period history of Chinese cinema in the 80s nor a thematic study of the fifth generation. Rather, it is an analysis of films as narrative texts that reflected on history. It uses the perspectives revealed by characters' narrative patterns and conflicts in films of the 1980s to examine how the era was perceived at that time as well as how China's national future and individuals' personal futures were being conceptualized. This title will be a valuable resource for scholars and students of Chinese Studies, Contemporary China Studies, Film Studies, and those who are interested in Chinese culture and society in general. **Foreign Assistance and Related Programs Appropriations for 1984** United States.
