Reforming New Orleans Peter F. Burns, Matthew O. Thomas, 2015-12-18 Hurricane Katrina devastated New Orleans in 2005 but in the subsequent ten years the city has demonstrated both remarkable resilience and frustrating stagnation In *Reforming New Orleans* Peter F Burns and Matthew O Thomas chart the city s recovery and assess how successfully officials at the local state and federal levels transformed the Big Easy in the wake of disaster Focusing on reforms in four key sectors of urban governance economic development education housing and law enforcement both before and after Katrina they find lessons for cities hit by sudden shocks such as natural disasters or large scale financial crises One of their key insights is that post disaster recovery tends to limit local control State and federal officials national foundations and local actors excluded by pre Katrina politics used their resources and authority to displace entrenched local interests and implement a public agenda focused on institutional and governmental change Burns and Thomas also make clear reform in New Orleans was already underway before Katrina hit but that it had focused largely on upper and middle class residents a trend that accelerated after the storm The market centered nature of the reforms have ensured that they largely benefited city and regional elites while not significantly aiding the city s working class and impoverished populations Thus reform has come at a cost and that cost in the long term could undermine the political gains of the post Katrina era

Copyright Office,1977 **Cold Mountain** Charles Frazier,2023-04-11 A wounded Confederate soldier treks across the ruins of America in this National Book Award winning novel A stirring Civil War tale told with epic sweep People Sorely wounded and fatally disillusioned in the fighting at Petersburg a Confederate soldier named Inman decides to walk back to his home in the Blue Ridge mountains to Ada the woman he loves His journey across the disintegrating South brings him into intimate and sometimes lethal converse with slaves and marauders bounty hunters and witches both helpful and malign Meanwhile the intrepid Ada is trying to revive her father s derelict farm and learning to survive in a world where the old certainties have been swept away As it interweaves their stories Cold Mountain asserts itself as an authentic odyssey hugely powerful majestically lovely and keenly moving Recovering Inequality Steve Kroll-Smith,2018-08-15 A lethal mix of natural disaster dangerously flawed construction and reckless human actions devastated San Francisco in 1906 and New Orleans in 2005 Eighty percent of the built environments of both cities were destroyed in the catastrophes and the poor the elderly and the medically infirm were disproportionately among the thousands who perished These striking similarities in the impacts of cataclysms separated by a century impelled Steve Kroll Smith to look for commonalities in how the cities recovered from disaster In Recovering Inequality he builds a convincing case that disaster recovery and the reestablishment of social and economic inequality are inseparable Kroll Smith demonstrates that disaster and recovery in New Orleans and San Francisco followed a similar pattern In the immediate aftermath of the flooding and the firestorm social boundaries were disordered and the communities came together in expressions of unity and support But these were quickly replaced by other narratives and actions including the depiction of the poor as looters uneven access to disaster assistance and successful efforts by the powerful to take valuable urban real estate from vulnerable people Kroll Smith concludes that inexorable market forces ensured that recovery efforts in both cities would reestablish the patterns of inequality that existed before the catastrophes The major difference he finds between the cities is that from a market standpoint New Orleans was expendable while San Francisco rose from the ashes because it was a hub of commerce
