than 45 years of the author's riding experiences with data collected over five years of systematic observation and extensive ethnographic interviews with over 200 male and female riders. Much has been written about hardcore bikers but there has been little scholarly research on the much larger segment of the population more aptly called motorcycle enthusiasts. This book focuses on them: the hard working plumbers, truck drivers and other blue collar workers as well as the white collar executives, doctors and other professionals who are mostly married, have mortgages, pay their bills, obey the law and on weekends and holidays participate in a favorite pastime riding motorcycles.

**Bicycling, Motorcycling, Rhetoric, and Space** Hunter H. Fine, 2022-10-03. Bicycling, Motorcycling, Rhetoric and Space draws from cultural studies, rhetorical theory and political philosophy to examine bicycling and motorcycling as serious forms of communication and even thought. By analyzing how everyday movements function in modern and postmodern contexts, Hunter H. Fine is able to determine the social meanings behind human powered and motorized forms of cycling. Through the lenses of sophistic rhetoric and poststructuralist theory, the author uncovers how such mobilities inform our thoughts and interactions. Throughout history, this informing process has promoted specific ways of thinking that have resulted in moments of protest, conquest, awareness and transgression, which all involve a cycling rhetoric. This book contributes to various academic fields within the liberal arts and humanities while further establishing bicycling and motorcycling as important social, theoretical and political areas of inquiry. Scholars of rhetoric, communication studies, cultural studies and philosophy will find this book of particular interest.

Globalization Antonio L. Rappa, 2003-08-01. In the first edition, the themes of hope, optimism and progress of neoliberalism were examined in Asia and America. The second edition, *Globalization: Power, Authority and Legitimacy in Late Modernity*, analyses the new pessimism that has descended on the globalized world. The America that was once the bastion of hope, optimism and progress is now showing clear signs of a superpower in decline. The first sign of the American decline since 1941, in Pearl Harbor, was the destruction of the World Trade Center in New York City on 11 September 2001. The other signs are the Vietnamization of Iraq, a nuclear stand-off with North Korea, increasing trade imbalances with China and India, a stalemate with terrorists in Afghanistan, the challenge of European protectionism, a belligerent politics in the Middle East, overt American dependence on fossil fuels and the mushrooming of various subprime crises into an escalating global recession. This second edition incorporates the latest developments in terms of culture, wealth and terrorism around the world and provides possible solutions to salvage the American Dream.
