

Histoire de France

Époque contemporaine 1914 à nos jours

L'Histoire de France de la Préhistoire à nos jours en quatre volumes fait la part belle à l'histoire événementielle, à ses héros, à ses légendes, à ses lieux et aux monuments de son exceptionnel patrimoine, sans pour autant négliger, bien au contraire, les grandes évolutions sociales, économiques et culturelles de chaque époque.

C'est la plus récente synthèse d'un récit chronologique qui restitue ce qui a fait la France, au plus près des recherches des plus grands historiens. Plus de 3000 références bibliographiques sont proposées pour approfondir une histoire sans cesse renouvelée.

Ce dernier volume de la quadriologie, qui entreprend de retracer l'histoire de France à partir du début de la Première Guerre mondiale en 1914 jusqu'à nos jours, s'adresse aussi bien aux étudiants qu'aux amateurs et passionnés de l'histoire de France. Il y trouve aussi des biographies des principaux personnages qui ont fait l'histoire de France, le point sur les événements les plus marquants de l'histoire nationale et sur les principaux monuments de la mémoire nationale, ainsi qu'une introduction aux débats historiographiques contemporains.

Julien Guéhen-Picault est docteur en histoire moderne de l'Université Sorbonne Paris Nord et titulaire d'une Licence de Droit de l'Université Paris-Est - Paris-Seine. Il est chargé de cours à l'Université Paris-Nanterre.

Rethinking France Pierre Nora,2001 How do we visualize a state or a nation Some might imagine territory the borders that divide countries that mark the space where power is exercised and history evolves Others might picture natural aspects like mountains rivers and landscapes that make their own country distinct For Pierre Nora these are historical and geographical conceptions of space And in the case of the French these conceptions are not separate but instead uniquely linked They are key to understanding French national identity In Space the second volume in the University of Chicago Press's translation of Nora's ambitious *Les Lieux de memoire* a group of France's leading historians and cultural commentators call attention to the meaning of space for the French and the firm connection between the nation's history and its geography The essays gathered here cover the most essential approaches to French space external and internal boundaries the base unit of local space and the mental construction that gives a general idea of the concept of landscape The analyses focus on three

aspects of natural boundaries the forest the north and the south and the coastline Each region of France they show is a space of memory that is the fruit of all the knowledge that gives it shape statistical cartographical geological and historical A crucial piece in Nora's profound historical project on the way the French understand themselves this volume will be appreciated by any critical thinker with an interest in French history politics culture or philosophy
