Listed below are some of the features included in this TM to help locate and use the provided information. This TM has been organized using the Work Package WP concept. Each chapter contains a series of WPs rather than sections and paragraphs. Each WP is designed to stand alone as a complete information module. If you keep the sections of this TM in a loose leaf binder you will be able to remove just the WP needed to complete a specific task. Each WP is numbered using a four digit number beginning with WP 0001. WPs are numbered sequentially throughout the TM e.g WP 0022 WP 0023 etc. The Table of Contents lists each chapter and WP title as well as all figures and tables contained within each WP. Figures and tables are numbered sequentially within each WP. The WP number is located at the top right of each page. It is also located at the bottom of the page with the WP page number included. 0001 1 would be page 1 of the General Information WP. WP 0001 General Information. Each WP starts on a right hand page. This is done so you can remove a single WP from the paper TM if needed for a task. Blank pages are assigned a number but it appears on the preceding or following page. For example if page 0001 10 of a WP is blank page 0001 9 will have the number 0001 9 10 blank or if page 0001 1 of a WP is blank page 0001 2 will have the number 0001 1 blank 2. Each

WP containing step by step maintenance or troubleshooting procedures will end with the words END OF TASK and each WP ends with the statement END OF WORK PACKAGE Think of each WP as a small standalone TM
