Department of Education, 1845 [Annual Report of the Department of the Interior](#) United States. Department of the Interior, 1897 , *Census Reports Tenth Census: Report on the defective, dependent, and delinquent classes of the population of the United States, as returned at the Tenth Census (June 1, 1880)* United States. Census Office, 1888 [Failing Our Future](#) Joshua R. Eyer, 2024-08-27 An indictment of the grading system in American schools and colleges and a blueprint for how we can change it One of the most urgent and long standing issues in the US education system is its obsession with grades In *Failing Our Future* Joshua R Eyer shines a spotlight on how grades inhibit learning cause problems between parents and children amplify inequities and contribute to the youth mental health crisis Eyer who runs the Center for Excellence in Teaching and Learning at the University of Mississippi illustrates how grades interfere with students intrinsic motivation and perpetuate the idea that school is a place for competition rather than discovery Grades force students to focus on rewards and distract them from exploring ideas or pursuing interests beyond what they ll be tested on In fact grades significantly impede the learning process They are also significantly affecting children s physical emotional and psychological well being Rates of anxiety depression and suicidal ideation have spiked and academic stress tied to grades is a leading cause of this escalation Eyer shares success stories of grading reform efforts that are already under way as an antidote to the harms caused by the practices currently used in educational institutions Equal parts scathing and hopeful *Failing Our Future* aims to improve the lives of students by encouraging them to define success on their own terms Parents educators policymakers and students will find in these pages a rallying cry for change and a blueprint for how to implement reforms in our homes and classrooms **The Market Revolution** Charles Sellers, 1994-05-19 In *The Market Revolution* one of America s most distinguished historians offers a major reinterpretation of a pivotal moment in United States history Based on impeccable scholarship and written with grace and style this volume provides a sweeping political and social history of the entire period from the diplomacy of John Quincy Adams to the birth of Mormonism under Joseph Smith from Jackson s slaughter of the Indians in Georgia and Florida to the Depression of 1819 and from the growth of women s rights to the spread of the temperance movement Equally important he offers a provocative new way of looking at this crucial period showing how the boom that followed the War of 1812 ignited a generational conflict over the republic s destiny a struggle that changed America dramatically Sellers stresses throughout that democracy was born in tension with capitalism not as its natural political expression and he shows how the massive national resistance to commercial interests ultimately rallied

around Andrew Jackson An unusually comprehensive blend of social economic political religious and cultural history this accessible work provides a challenging analysis of this period with important implications for the study of American history as a whole It will revolutionize thinking about Jacksonian America Annual Report of the Board of Education Massachusetts. Glenn,1984-06-30 Campaigns against Corporal Punishment explores the theory and practice of punishment in Antebellum America from a broad comparative perspective It probes the concerns underlying the naval prison domestic and educational reform campaigns which occurred in New England and New York from the late 1820s to the late 1850s Focusing on the common forms of physical punishment inflicted on seamen prisoners women and children the book reveals the effect of these campaigns on actual disciplinary practices Myra C Glenn also places the crusade against corporal punishment in the context of various other contemporary reform movements such as the crusade against intemperance and that against slavery She shows how regional and political differences affected discussions of punishment and discipline
