Algorithm Theory - SWAT 2004 Torben Hagerup, Jyrki Katajainen, 2004-06-08. This volume contains the papers presented at SWAT 2004, the 9th Scandinavian Workshop on Algorithm Theory, which was held on July 8-10, 2004, at the Louisiana Museum of Modern Art in Humlebæk on the resund coast north of Copenhagen. The SWAT workshop, in reality a full edged conference, has been held biennially since 1988 and rotates among the five Nordic countries: Denmark, Finland, Iceland, Norway, and Sweden. The previous meetings took place in Halmstad 1988, Bergen 1990, Helsinki 1992, Århus 1994, Reykjavik 1996, Stockholm 1998, Bergen 2000, and Turku 2002. SWAT alternates with the Workshop on Algorithms and Data Structures (WADS), held in an odd-numbered year. The call for papers invited contributions on all aspects of algorithm theory. A total of 121 submissions was received; an overall SWAT high. These underwent thorough reviewing, and the program committee met in Copenhagen on March 20-21, 2004, and selected 40 papers for presentation at the conference. The program committee was impressed with the quality of the submissions and, given the constraints imposed by the choice of conference venue and duration, had to make some tough decisions. The scientific program was enriched by invited presentations by Gerth Stålting, Brodal, University of Aarhus, and Charles E. Leiserson, Massachusetts Institute of Technology. Two satellite events were held immediately before SWAT 2004: the Workshop on On-Line Algorithms (OLA 2004), organized by members of the Department of Mathematics and Computer Science at the University of Southern Denmark, and the Summer School on Experimental Algorithmics, organized by the Performance Engineering Laboratory in the Department of Computing at the University of Copenhagen. More information about SWAT 2004 and its satellite events is available at the conference web site: <http://swat.diku.dk>.
