**Mid-term evaluation of the project “Disposal of persistent organic pollutants and obsolete pesticides and strengthening sound pesticide management in Cameroon”** Food and Agriculture Organization of the United Nations, 2020-02-07 Every year large quantities of pesticides are used in Cameroon for agricultural production However without proper management of pesticides and associated waste accumulation of stocks of obsolete pesticides has led to contamination of sites In this context the project Disposal of POPs and Obsolete Pesticides and Strengthening Sound Pesticide Management in Cameroon was launched to address the problems of stocking and to develop alternatives to the use of chemical pesticides Project activities were found to be well defined and appropriate aligning with
