Whistle While You Work Richard J. Leider, David Shapiro, 2001-01-31 Everyone wants to live a life that enables them to make the most of their unique gifts interests and passions to find their true calling the work they were born to do Whistle While You Work is a liberating guide that uses powerful stories and exercises to help readers find truly satisfying fulfilling work consistent with their deepest values The authors combine a thoughtful and practical discussion

about calling with examples showing how to apply these ideas to one's life. They mix in dozens of inspiring stories featuring individuals who have found or are in the process of finding their calling with straightforward advice and suggestions on how to discover one's calling. Most importantly, they provide readers with a solid path for embracing calling, a subject usually addressed abstractly in a useful, fun, and systematic way. Through a unique Calling Card exercise that features a guided exploration of 52 natural preferences such as Advancing Ideas, Doing the Numbers, Building Relationships, Performing Events, the book gives readers a new way to detect and reflect on the core of their life's work. By using this and other tools in the book, readers develop their own answers to three critical questions: What gift do I naturally give to others? What gift do I most enjoy giving to others? What gift have I most often given to others? In answering those questions, they will reveal to themselves their calling and ultimately move toward new realms of success and fulfillment. *Whistle While You Work* is an inspiring, effective, and entertaining approach to discovering one's calling. It will equip all of us with the mind-set, stories, coaching, and perhaps most importantly, the hope we need to find our way ahead and see a clear picture of what our right work is and what to do with our limited time here on Earth. [Unlocking the Moviemaking Mind](#) Michael Schoonmaker, John M.

Wolf, 2014-01-16 Have you ever had an idea for a book, a movie, or a TV show? Chances are that you've had many. Today's students, who are coming of age in a world that is increasingly mediated by smartphones, pads, pods, apps, and the Internet, are even more likely to think of their lives and experiences in terms of stories. *Unlocking the Moviemaking Mind* explores how our innate abilities as storytellers can be used in the K-12 classroom to stimulate new approaches to learning. Relying on data collected during a multi-year research project in a variety of school settings, this book relies on story and synthesis to present tried and true methods of introducing media-making practices in the classroom. *Unlocking the Moviemaking Mind* also offers strategies for overcoming individual and systematic barriers that educators and administrators are likely to encounter when incorporating storytelling into their curricula. Moreover, the book broaches topics that are especially germane to today's students, including literacy, motivation, and experiential learning. **Houston Private and Select Public Schools** Shelby
