

Film Study Worksheet: "Contagion"

While watching the film "Contagion" think about the following questions and record your responses. Responses will be due on Friday December 7 2018 by 5:00PM. **You will need to upload a PDF document of this worksheet to Moodle for it to be graded.** You may receive up to 5 bonus points for completing this activity and attending the movie and panel discussion.

1. Explain five scientific facts mentioned in the film that we discussed in class. Were the facts scientifically accurate?

- 1- R naught, how many cases does one case generate, accurate.
- 2- Biosafety 4 level laboratory, full hazmat suits with air tubes, accurate.
- 3- Live attenuated virus vaccination, and testing on animals, accurate.
- 4- lock and key attachment mechanism of the virus to the receptor, very accurate.
- 5- Bat and pig virus recombination through antigenic shift, accurate.

2. Describe any aspect of the film that showed you something you hadn't seen/known before, caused you to think in a new way, or helped you understand something more thoroughly than before. In addition, describe how it changed your thinking.

How fast a novel and deadly virus can spread and send society into anarchy. I thought that it was easier to quarantine and isolate individuals but the movie showed it to be extremely difficult.

3. Was there anything that you saw, or heard, in the film that was unconvincing, or seemed out of place?

1- That when they found out the dad was immune to the virus, they didn't study him or look into what made him immune to the virus. Even if its expensive, the world was going into anarchy and all efforts should have been put into researching for a cure.

2- If the dad is immune he can still be a carrier and the daughter would have been exposed the whole time. Immune does not mean he cant carry the virus. it just means the virus's

New Insights on Biofilm Antimicrobial Strategies

Luís Melo, Nuno F. Azevedo, 2021-08-17 Over the last few decades the study of microbial biofilms has been gaining interest among the scientific community These microbial communities comprise cells adhered to surfaces that are surrounded by a self produced exopolymeric matrix that protects biofilm cells against different external stresses Biofilms can have a negative impact on different sectors within society namely in agriculture food industries and veterinary and human health As a consequence of their metabolic state and

matrix protection biofilm cells are very difficult to tackle with antibiotics or chemical disinfectants Due to this problem recent advances in the development of antibiotic alternatives or complementary strategies to prevent or control biofilms have been reported This book includes different strategies to prevent biofilm formation or to control biofilm development and includes full research articles reviews a communication and a perspective *Configuring Contagion* Lotte Meinert,Jens

Seeberg,2022-02-11 Expanding our understanding of contagion beyond the typical notions of infection and pandemics this book widens the field to include the concept of biosocial epidemics The chapters propose varied and detailed answers to questions about epidemics and their contagious potential for specific infections and non infectious conditions Together they explore how inseparable social and biological processes configure co existing influences which create epidemics and in doing so stress the role of social inequality in these processes The authors compellingly show that epidemics do not spread evenly in populations or through simple coincidental biological contagion they are biosocially structured and selective and happen under specific economic political and environmental conditions This volume illustrates that an understanding of biosocial factors is vital for ensuring effective strategies for the containment of epidemics **Moving Viewers** Carl

Plantinga,2009-04-08 Everyone knows the thrill of being transported by a film but what is it that makes movie watching such a compelling emotional experience In *Moving Viewers* Carl Plantinga explores this question and the implications of its answer for aesthetics the psychology of spectatorship and the place of movies in culture Through an in depth discussion of mainstream Hollywood films Plantinga investigates what he terms the paradox of negative emotion and the function of mainstream narratives as ritualistic fantasies He describes the sensual nature of the movies and shows how film emotions are often elicited for rhetorical purposes He uses cognitive science and philosophical aesthetics to demonstrate why cinema may deliver a similar emotional charge for diverse audiences **Environmental Ethics and Film** Pat Brereton,2015-09-16

Environmental ethics presents and defends a systematic and comprehensive account of the moral relation between human beings and their natural environment and assumes that human behaviour toward the natural world can and is governed by moral norms In contemporary society film has provided a powerful instrument for the moulding of such ethical attitudes Through a close examination of the medium *Environmental Ethics and Film* explores how historical ethical values can be re imagined and re constituted for more contemporary audiences Building on an extensive back catalogue of eco film analysis the author focuses on a diverse selection of contemporary films which target audiences ethical sensibilities in very different ways Each chapter focuses on at least three close readings of films and documentaries examining a wide range of environmental issues as they are illustrated across contemporary Hollywood films This book is an invaluable resource for students and scholars of environmental communication film studies media and cultural studies environmental philosophy and ethics **A Theory of Uncertainty** Andreas Klinke,2024-08-02 Using sources from classical to modern that broach the

phenomenon of uncertainty and its relation to risk this book creates a novel approach to the recognized but theoretically

often unattended issue of uncertainty Andreas Klink develops a new general theory of uncertainty that provides a taxonomy of categories which are deduced from a critical inventory in philosophy social and natural sciences and risk research Comprising six parts the philosophical grounding of uncertainty sets the stage for the following philosophical and social scientific accounts and explanation of four distinctive guises of uncertainty that form a taxonomic notion and rationale ontological epistemological linguistic communicative and teleological uncertainty The theoretical conceptual rumination provides a complex differentiated view of the anatomy of uncertainty and an understanding that can be used in further theoretical and empirical research as well as socio political practice The latter is delineated in the final part addressing the societal domestication of uncertainty This book will be of great interest to scholars and students in philosophy social and natural sciences risk research as well as inter and transdisciplinary science fields
