standardized tests and to guide students through life's most important lessons. Dissatisfied with traditional educational models, Christopher Uhl and Dana L. Stuchul asked themselves these questions: What they discovered will open the eyes of today's educators to a whole new way of teaching. The authors promote an approach that fosters self-knowledge, creativity, curiosity, and an appreciation for our planet. Central to their philosophy is the question of what we humans need in order to live meaningful lives. The answer: healthy relationships with ourselves, each other, and the world. Teaching as if Life Matters is an open letter to teachers offering guidance and encouragement for nurturing students in ways that make teaching and learning meaningful. In short, it is a passionate plea for transformative teaching. Informed by the alternative educational philosophies of John Dewey, Maria Montessori, Rudolf Steiner, and Ivan Illich, this book invites teachers and students to participate in a new culture of education. This fascinating and urgently needed book will inspire today's educators to inspire their students.

Teaching Freedom Massimo Castoldi, 2024-08-06 Starting in the early 1900s, male and female elementary schoolteachers in Italy gained increasing awareness of the role of social workers in the fight against illiteracy and in creating civic consciousness based on widespread qualified education. In 1900, the *Unione Magistrale*, the Teachers Association, was founded. In 1919, the *Sindacato Magistrale*, the Italian Teachers Union, a member of the General Confederation of Labor, was created. Inevitably, some of these teachers, firmly convinced of their duty, opposed fascism, which from the moment it originated aimed at creating obedient boys who were loyal to fascist doctrine and trained in warfare, and girls ready to become the mothers and wives of soldiers. These teachers resisted in the most diverse ways. Some were forced to abandon teaching; a number of them were killed by fascist violence, but others were able to navigate the restrictions imposed on them by the regime. In *Teaching Freedom*, the author reconstructs twelve biographies of these teachers based on unpublished material and archive documents in a form of research suspended between history and pedagogy. The chronological order of the stories retraces the way fascism progressively seized power, suffocating all forms of freedom of expression. Moreover, the study of newly found documents and various testimonies show the teachers' ceaseless invention of alternative teaching strategies.
