Making of Distinctions Antony Palackal, Nandita Chaudhary, Giuseppina Marsico, 2021-01-01 The volume revolves around the theme inclusive oppositions in social sciences that address the issue of making of distinctions and create artificial dichotomies and dualistic view of society It is set against the currents of systematic reduction of anthropodiversity and psychodiversity which appears as a pathology of the current neo liberalist and colonialist model of development The volume is an attempt to overcome the colonial tendencies and forces to standardize and homogenize various categories and institutions in society by establishing structural relationality and intersectionality between the parts of the whole ecosystem where in the human and non human intersect and interact The volume brings together a unique collaboration in the field of Cultural Psychology and offers the intellectual tools to grasp how a syncretic understanding of Identity and Culture unfolds particularly in the key domain of gender The chapters and commentaries uncover cultural dynamics and identity formation from a specific location the region of Kerala in south western India The chapters and commentaries in this volume illustrates that Kerala is a cultural micro cosmos in which gender identity religion ethnicity caste global market and tradition intersect to create complex and multiple subjects that do not fit in binary categorizations The compiled volume will be of great value to scholars researchers and academicians in Social Sciences
