Sarshar, 2014-09-17 Living continuously in Iran for over 2700 years Jews have played an integral role in the history of the country Frequently understood as a passive minority group and often marginalized by the Zoroastrian and succeeding Muslim hegemony the Jews of Iran are instead portrayed in this book as having had an active role in the development of Iranian history society and culture Examining ancient texts objects and art

from a wide range of times and places throughout Iranian history as well as the medieval trade routes along which these would have travelled *The Jews of Iran* offers in depth analysis of the material and visual culture of this community Additionally an exploration of modern novels and accounts of Jewish Iranian women's experiences sheds light on the social history and transformations of the Jews of Iran from the rule of Cyrus the Great c 600 530 BCE to the Iranian Revolution of 1978 9 and onto the present day By using the examples of women writers such as Gina Barkhordar Nahai and Dalia Sofer the implications of fictional representation of the history of the Jews of Iran and the vital importance of communal memory and tradition to this community are drawn out By examining the representation of identity construction through lenses of religion gender and ethnicity the analysis of these writers work highlights how the writers undermine the popular imagining and imaging of the Jewish other in an attempt to create a new narrative integrating the Jews of Iran into the idea of what it means to be Iranian This long view of the Jewish cultural influence on Iran's social economic political and cultural development makes this book a unique contribution to the field of Judeo Iranian studies and to the study of Iranian history more broadly

New Voices in Greek Orthodox Thought Trine Stauning Willert, 2016-05-13 New Voices in Greek Orthodox Thought brings to the light and discusses a strand in contemporary Greek public debate that is often overlooked namely progressive religious actors of a western orientation International and Greek media tend to focus on the extreme views and to categorise positions in the public debate along well known dichotomies such as traditionalists vs modernisers Demonstrating that in late modernity parallel to rising nationalisms there is a shift towards religious communities becoming the central axis for cultural organization and progressive thinking the book presents Greece as a case study based on empirical field data from contemporary theology and religious education and makes a unique contribution to ongoing debates about the public role of religion in contemporary Europe

Domestic Colonies Barbara Arneil, 2017-10-06 Modern colonization is generally defined as a process by which a state settles and dominates a foreign land and people This book argues that through the nineteenth and into the first half of the twentieth centuries thousands of domestic colonies were proposed and or created by governments and civil society organizations for fellow citizens as opposed to foreigners and within their own borders rather than overseas Such colonies sought to solve every social problem arising within industrializing and urbanizing states Domestic Colonies argues that colonization ought to be seen during this period as a domestic policy designed to solve social problems at home as well as foreign policy designed to expand imperial power Three kind of domestic colonies are analysed in this book labour colonies for the idle poor farm colonies for the mentally ill and disabled and utopian colonies for racial religious and political minorities All of them were justified by an ideology of colonialism that argued if people were segregated in colonies located on empty land and engaged in agrarian labour this would improve both the people and the land Key domestic colonialists analysed in this book include Alexis de Tocqueville Abraham Lincoln Peter Kropotkin Robert Owen and Booker T Washington The turn inward to colony thus requires us to rethink the meaning and scope of colonization and colonialism in modern political theory and practice
