history geography technology and cultural diversity *History of Forensic Medicine* Burkhard Madea, 2017-01-01 Forensic Medicine is an old medical discipline defined as that science which teaches the application of every branch of medical knowledge to the purpose of the law Alfred Swaine Taylor Forensic Medicine deals with medical evidence not only in practice but also in research and furthermore all legal essentials in health care especially for doctors are part of teaching training and research Several steps in the development of Forensic Medicine can be distinguished At first the use of medical knowledge for legal and public purposes Secondly the compulsory medical testimony for the guidance of judges Thirdly the professionalization as an own academic discipline The development and existence of a speciality of Forensic Medicine depends essentially on two factors on a sufficiently high development of the law and on a sufficiently high development of medicine The period of professionalization of Forensic Medicine as an own academic discipline started in the 19th century especially in Paris Vienna London Edinburgh Berlin Since then the world has changed dramatically and we are now witnesses of a rapid deep rooted social cultural legal and technological transformation Already 40 years ago Professor Bernhard Knight wrote in a survey on legal medicine in Europe In all aspects of life the exchange of information on an international level can do nothing but good and legal medicine is no exception This book on the History of Forensic Medicine is an approach in this direction Forensic Medicine has a long and rich tradition since medical expertise has to face legal questions and new questions and developments raised by the society The aim of this book is to address the state of Forensic Medicine in different countries worldwide With contributions from Europe China Japan the United States and the United Arab Emirates **Flight Risk** Forrest L. Marion, 2018-10-15 From the 1920s Afghanistan maintained a small air arm that depended heavily upon outside assistance Starting in 2005 the United States led an air advisory campaign to rebuild the Afghan Air Force AAF In 2007 a formal joint combined entity led by a U S Air Force brigadier general began air advisor work with Afghan airmen Between 2007 and 2011 these efforts made modest progress in terms of infrastructures personnel and aircraft accessions and various training courses But by 2010 advisors increasingly viewed AAF command and control C2 as a problem area that required significant improvement if a professional air force was to be built In the spring of 2011 major institutional changes to AAF C2 procedures were being introduced when nine U S air advisors were killed The attack was the worst single incident loss of U S Air Force personnel in a deployed location since 1996 and the worst insider attack since 2001 From the day of that tragic event the cultural chasm between Afghanistan and the West became more apparent This dilemma continues with no end in sight to an air advisory mission of uncertain long term value Unjust Restitution Michael Kingsley Brown, 2025-02-04 The question of economic justice for Black Americans remains unresolved and continues to be the subject of contentious political debate In *Unjust Restitution* Michael K Brown examines the meaning of racial equality during three transformative periods in American history when significant changes to economic status and opportunity appeared to be a real possibility in the US Reconstruction the New Deal and the Great Society Political leaders believed

slavery and Jim Crow degraded Black people and enacted policies to rehabilitate formerly subjugated individuals Black Americans challenged this conception and repudiated the idea that they were damaged people in need of repair Repeatedly Black people s vision of economic justice was based on anti privilege egalitarianism the idea that a just restitution for their oppression required abolishing the political and legal privileges whites had acquired Black opposition reveals what was at stake at each historical moment and what might constitute economic justice in the twenty first century Equality of opportunity can be a just restitution for continuing durable racial inequality only if it changes the structure of people s economic opportunities
