The Oral History Manual Barbara W. Sommer, Mary Kay Quinlan, 2018-07-05. The Oral History Manual is designed to help anyone interested in doing oral history research to think like an oral historian. Recognizing that oral history is a research methodology, the authors define oral history and then discuss the methodology in the context of the oral history life cycle: the guiding steps that take a practitioner from idea through access use. They examine how to articulate the purpose of an interview, determine legal and ethical parameters, identify narrators and interviewers, choose equipment, develop budgets and record keeping systems, prepare for and record interviews, care for interview materials and use the interview information. In this third edition, in addition to new information on methodology, memory technology and legal options incorporated into each chapter, a completely new chapter provides guidelines on how to analyze interview content for effective use of oral history interview information. The Oral History Manual provides an updated and expanded road map and a solid introduction to oral history for all oral history practitioners from students to community and public historians.

The History Teacher's Movie Guide Richard Di Giacomo, 2008. Finding funding and using the right films and video equipment can be challenging for history teachers. Did you know that The movie Prince of Egypt was banned in Egypt? In the movie Troy, ancient Trojans are shown using llamas that could only be found in the New World at that time. Oliver Stone's movie JFK was so controversial that he wrote a whole book defending it. The movie 300 is based on a comic book and not meant to show historical reality at all. No one in the West has ever made a major motion picture featuring the life of Vladimir Lenin. Showing movies in the dark can damage your eyesight. Showing the wrong movie could get you fired or slapped with a heavy fine. There are ways to obtain free educational films. There are some great books and websites.
