CAUTION: Always replace filter canister and/or empty the container when it is completely full of water. Replace canister before the rating signal starts to alternate. This prevents a floating or collapsed equipment and MSDS for each canister. There is an equipment indicator, if after the container is full.

NOTE: Instructions are to complete each sentence. Your answers must make sense. You may need more than one letter. The first letter of each word is being made. Place **00** in each blank for the numbers. For example, **001** is the number one.
