Appetite for Self-Destruction Steve Knopper, 2009-01-06 For the first time Appetite for Self Destruction recounts the epic story of the precipitous rise and fall of the recording industry over the past three decades when the incredible success of the CD turned the music business into one of the most glamorous high profile industries in the world and the advent of file sharing brought it to its knees In a comprehensive fast paced account full of larger than life personalities Rolling Stone contributing editor Steve Knopper shows that after the incredible wealth and excess of the 80s and 90s Sony Warner and the other big players brought about their own downfall through years of denial and bad decisions in the face of dramatic advances in technology Big Music has been asleep at the wheel ever since Napster revolutionized the way music was distributed in the 1990s Now because powerful people like Doug Morris and Tommy Mottola failed to recognize the incredible potential of file sharing technology the labels are in danger of becoming completely obsolete Knopper who has been writing about the industry for more than ten years has unparalleled access to those intimately involved in the music world s highs and lows Based on interviews with more than two hundred music industry sources from Warner Music chairman Edgar Bronfman Jr to renegade Napster creator Shawn Fanning Knopper is the first to offer such a detailed and sweeping contemporary history of the industry s wild ride through the past three decades From the birth of the compact disc through the explosion of CD sales in the 80s and 90s the emergence of Napster and the secret talks that led to iTunes to the current collapse of the industry as CD sales plummet Knopper takes us inside the boardrooms recording studios private estates garage computer labs company jets corporate infighting and secret deals of the big names and behind the scenes players who made it all happen With unforgettable portraits of the music world s mighty and formerly mighty detailed accounts of both brilliant and stupid ideas brought to fruition or left on the cutting room floor the dish on backroom schemes negotiations and brawls and several previously unreported stories Appetite for Self Destruction is a riveting informative and highly entertaining read It offers a broad perspective on the current state of Big Music how it got into these dire straits and where it s going from here and a cautionary tale for the digital age

HOW AMERICA BECAME ANTI-CHRISTIAN AND SELF-DESTRUCTIVE Dr. George

Joseph K PhD,2015-12-10 The American dream of a free world will be defeated if Christianity will be defeated in USA USA cannot survive unless the current perceptions of freedom and secularism undergo a drastic change There is freedom to promote almost everything except the Christian truth Ten Commandments are banned But yoga is promoted at all levels This kind of selective discrimination against the truth will destroy the very foundations of any society Strange motivations of the anti supernatural secularist lobby in the governmental institutions and their complicity in side lining Christian faith cannot be ruled out Thus ironically the undefeatable America tends to defeat itself In its rejection of Christian truth and values USA made truth a lie and the lie a truth If the current trends of self hatred of Christian faith by higher criticism and liberal theology and destruction of churches continue in 20 years USA will be overrun by the values and culture of Hinduism and Islam And USA will go down in history as the most powerful empire which had the best values in its custody since the days of its foundation but subjected itself to a silent death executed by its experts and enjoyed by its people who went after thrillers fantasies romances and other vain imaginations neglecting the truth Remember it was the hatred to Christian values that instigated the anti supernatural liberal theology from within and without the church which ultimately resulted in the Nazi Holocaust Beware when the Christian faith and values are suppressed the very survival of the societies at large is endangered This is the lesson of the entire world history *The Book of Theanna, Updated Edition* Ellias

Boredom, and Everyday Life Patrick Gamsby, 2022-09-23 Henri Lefebvre Boredom and Everyday Life culls together the scattered fragments of Henri Lefebvre's 1901-1991 unrealized sociology of boredom. In assembling these fragments sprinkled through Lefebvre's vast oeuvre, Patrick Gamsby constructs the core elements of Lefebvre's latent theory of boredom. Themes of time, modernity, everyday space, urban, suburban, and mass culture, culture industry, industry culture are explored throughout the book, unveiling a concealed dialectical movement at work with the experience of boredom. In analyzing the dialectic of boredom, Gamsby argues that Lefebvre's project of a critique of everyday life is key for making sense of the linkages between boredom and everyday life in the modern world.
