to Chop Tops Tony Thacker,2024-11-15 Learn how to chop tops with advice from the experts Today the purpose of a
 chopped top on a hot rod is mostly to make a visual statement but that wasn t always the case In the late 1930s roadsters
 were considered to be real hot rods while sedans and coupes were not considered to be race cars Over time sanctioning
 bodies began to accept sedans and coupes as race cars which created the need for chopping tops When competing in dry
 lakes racing the tall birdcages of cars that had not been chopped created an excessive amount of aerodynamic drag Chopping
 the top increased the aerodynamic efficiency to the point that the coupes were competitive with the roadsters Tops aren t
 often chopped for those reasons today However when viewing the works of art that have been created by the best chopping
 masters it s clear that enhanced aesthetics is the only reason that is needed Chopping a top may seem simple at first
 especially if you think that old tops are mostly square but it is not The process of chopping a top severely alters the angles of
