Wright,Gillian B. Silver,Cyrilla van der Donk,Bas van Lanen,2022-02-01 An invaluable tool for health and social work students and professionals who want to improve their practice through collaborative research with patients clients and colleagues Throughout history some of the most prominent contributors to health and social sciences have been men and women comfortable with both practice and academia But today research in health related fields is increasingly conducted in specialized settings by people who are first and foremost researchers Critics bemoan this loss of practice based research long considered a vital part of the contribution that doctors nurses public health workers and social workers can make both to their field and the communities in which they work Unfortunately the explosion of new discoveries in health related fields along with the exponential increase in the amount of knowledge being produced and the growing demands of practice have caused both the production and application of knowledge to become highly specialized and increasingly complex This has resulted in a widening gap between research and practice Recognizing the need for a guide to this type of research Practitioner Research for Social Work Nursing and the Health Professions is a thoroughly reimagined version of a book originally published in 2011 in the Netherlands Aimed at American practitioners it is a highly practical guide for anyone in social work nursing and other health care and social welfare settings Its seven step Practitioner Research Method offers readers a tried and true approach to conducting research in their own work environments and the authors use real world examples to highlight strategies for overcoming barriers and incorporating research While leading practitioners through each stage of the research process the authors explain in detail how to apply a variety of field tested tools and techniques A unique and indispensable resource for students in undergraduate and graduate research courses as well as for seasoned professionals who seek a practical guide for developing and implementing their own research projects in social work nursing and the health professions this book is also the first textbook to introduce the concept and practice of practitioner research to an American audience Strategies for Successful Writing James A. Reinking,Andrew W. Hart,Robert Von der Osten,1998-08 **Interviewing for the Selection of Staff** Edgar Anstey,Edith O. Mercer,2017-06-26 This book first published in 1956 is intended for those who interview people to assess their suitability for appointment or promotion to a particular position of employment The authors discuss different methods of interviewing how to create appropriate questions for the interview and how to reach conclusions with the answers given The authors also include a section which gives advice and guidance to a person who is about to be interviewed **The Discursive**

Construction of the Scots Language Johann Wolfgang Unger, 2013-10-24 This monograph is about how the Scots language is discursively constructed both from above through texts such as educational policies debates in parliament and official websites and from below in focus group discussions among Scottish people It uses the interdisciplinary discourse historical approach to critical discourse analysis to examine what discursive strategies are used in different texts and also to investigate salient features of context This allows a broader discussion of the role of this language in Scotland and how different ways of constructing a language can percolate through society appearing in both important elite texts and discussions among ordinary people It thus contributes to the body of knowledge about contemporary Scots but also expands the range of possible applications for critical discourse analysis approaches
