**Reinventing Technological Innovations with Artificial Intelligence** Adarsh Garg, 2023-09-22 Reinventing Technological Innovations with Artificial Intelligence delves into the transformative impact of Augmented and Virtual Reality AVR technology across industries The book explores the merging of real and digital worlds paving the way for personalized experiences in areas such as tourism marketing education and more With the potential to redefine business practices and societal norms in the era of Industry 4.0 AVR technologies hold untapped potential beyond gaming and entertainment This volume presents a comprehensive overview of the current landscape challenges and prospects of integrating AVR with Artificial Intelligence AI for innovation and sustainability in various domains The book presents 11 edited chapters contributed by technology and innovation experts that explore applications of AI AR and VR technologies in different sectors in both public and private sectors The editors have included reviews of technologies that impact human resource management corporate social responsibility healthcare supply chain and criminal investigation The reviews also highlight the role of AI in sustainable agriculture and smart cities Key Features Unveils the role of AVR in transforming real surroundings into digitally enhanced personal experiences Explores AVR's applications beyond gaming in diverse sectors like marketing construction education and more Discusses challenges such as technical limitations high costs and resistance to adopting AVR Addresses the need to enhance the reliability and effectiveness of AVR technologies in various industries Provides a comprehensive perspective on AI innovations AR and VR technologies with real world examples The book is an informative reference for researchers professionals and experts in technology innovation who are interested in the convergence of Augmented and Virtual Reality with AI for practical applications in diverse industries [Micro Irrigation Scheduling and Practices](#) Megh R. Goyal, Balram Panigrahi, Sudhindra N. Panda, 2017-09-07 Many countries around the world are struggling with the challenges of water scarcity including water for crops Micro irrigation methods are an effective means to make the most efficient use of available water This volume Micro Irrigation Scheduling and Practices continues the efforts of the book series Innovations and Challenges in Micro Irrigation to provide informative and comprehensive knowledge on micro irrigation methods and practices This new book presents some of the latest information and research on micro irrigation and covers the area of performance practices and design focusing particularly on the performance of vegetable fruit and row crops in conjunction with different scheduling and practices Irrigation scheduling is an important water management strategy and this book addresses scheduling methods and issues Design aspects of micro irrigation systems have also been discussed in the book The authors present their research and studies on scheduling practices and design micro irrigation systems with a variety of fruits and vegetables including peppers chili watermelon oranges banana litchi rice sugarcane sorghum and marigolds Micro Irrigation Scheduling and Practices will serve as a valuable reference for researchers water resources professionals agricultural extension agencies farmers and faculty and students **Innovative Computing and**

**Communications** Aboul Ella Hassanien, Sameer Anand, Ajay Jaiswal, Prabhat Kumar, 2024-10-14 This book includes high quality research papers presented at the Seventh International Conference on Innovative Computing and Communication ICICC 2024 which is held at the Shaheed Sukhdev College of Business Studies University of Delhi Delhi India on 16 17 February 2024 Introducing the innovative works of scientists professors research scholars students and industrial experts in the field of computing and communication the book promotes the transformation of fundamental research into institutional and industrialized research and the conversion of applied exploration into real time applications **Intelligent Technologies for Research and Engineering** S. Kannadhasan, R. Nagarajan, Alagar Karthick, K. K. Saravanan, Kaushik Pal, 2024-07-12 This volume explores diverse applications for automated machine learning and predictive analytics The content provides use cases for machine learning in different industries such as healthcare agriculture cybersecurity computing and transportation Key highlights of this volume include topics on engineering for underwater navigation and computer vision for healthcare and biometric applications Chapters 1 4 delve into innovative signal detection biometric authentication underwater AUV localization and COVID 19 face mask detection Chapters 5 9 focus on wireless pH sensing differential pattern identification economic considerations in off grid hybrid power high optimization of image transmission and ANN based IoT bot traffic detection Chapters 10 12 cover mixed signal VLSI design pre placement 3D floor planning and bio mimic robotic fish Finally Chapters 13 and 14 explore underwater robotic fish and IoT based automatic irrigation systems providing a comprehensive overview of cutting edge technological advancements The book is a resource for academics researchers educators and professionals in the technology sector who want to learn about current trends in intelligent technologies **Fertigation Technologies for Micro Irrigated Crops** Megh R. Goyal, Lala I. P. Ray, 2021-06-14 This new volume addresses the global water crisis by presenting new ways to use irrigation water judiciously through innovative fertigation management It looks at the research and review work done throughout the world on micro irrigation and the techno economic feasibility of various fertigation irrigation water management systems Taking a multidisciplinary perspective the chapters look at using fertigation to increase the effectiveness of irrigation systems crop performance evaluation of various crops under fertigation and irrigation methods estimating levels of crop requirements scheduling of fertigation and irrigation new fertigation equipment and technology cost components of the various irrigation and fertigation systems **Advanced Energy and Control Systems** Chandan Kumar Chanda, Jerzy R. Szymanski, Afzal Sikander, Pranab Kumar Mondal, Dulal Acharjee, 2022-01-04 This book gathers selected research papers presented at the Third International Conference on Energy Systems Drives and Automations ESDA 2020 It covers a broad range of topics in the fields of renewable energy power management drive systems for electrical machines and automation In a span of about a few interesting articles effort had gone in to critically discuss about the control system energy management and distribution in a unified approach common to electrical Control and mechanical engineering This book also comprehensively discusses a

variety of related tools and techniques and will be a valuable resource for researchers professionals and students in electrical and mechanical engineering disciplines

**Smart Agriculture Automation Using Advanced Technologies** Amitava Choudhury, Arindam Biswas, T. P. Singh, Santanu Kumar Ghosh, 2022-01-01 This book addresses the challenges for developing and emerging trends in Internet of Things IoT for smart agriculture platforms It also describes data analytics machine learning cloud architecture automation robotics and aims to overcome existing barriers for smart agriculture with commercial viability It discusses IoT based monitoring systems for analyzing the crop environment and methods for improving the efficiency of decision making based on the analysis of harvest statistics The book explores a range of applications including intelligent field monitoring intelligent data processing and sensor technologies predictive analysis systems crop monitoring and weather data enabled analysis in IoT agro systems This volume will be helpful for engineering and technology experts and researchers as well as for policy makers

**Modern Approaches in IoT and Machine Learning for Cyber Security** Vinit Kumar Gunjan, Mohd Dilshad Ansari, Mohammed Usman, Thi Dieu Linh Nguyen, 2023-12-07 This book examines the cyber risks associated with Internet of Things IoT and highlights the cyber security capabilities that IoT platforms must have in order to address those cyber risks effectively The chapters fuse together deep cyber security expertise with artificial intelligence AI machine learning and advanced analytics tools which allows readers to evaluate emulate outpace and eliminate threats in real time The book's chapters are written by experts of IoT and machine learning to help examine the computer based crimes of the next decade They highlight on automated processes for analyzing cyber frauds in the current systems and predict what is on the horizon This book is applicable for researchers and professionals in cyber security AI and IoT

**Techno-Societal 2016** Prashant M. Pawar, Babruvahan P. Ronge, R. Balasubramaniam, Sridevi Seshabhatter, 2017-06-16 This volume originates from the proceedings of a multidisciplinary conference Techno Societal 2016 in Maharashtra India that brings together faculty members of various engineering colleges to solve Indian regional relevant problems under the guidance of eminent researchers from various reputed organizations The focus is on technologies that help develop and improve society in particular on issues such as the betterment of differently abled people environment impact livelihood rural employment agriculture healthcare energy transport sanitation water education This conference aims to help innovators to share their best practices or products developed to solve specific local problems which in turn may help the other researchers to take inspiration to solve problems in their region On the other hand technologies proposed by expert researchers may find applications in different regions This back and forth process for local global interaction will help in solving local problems by global approach and help in solving global problems by improving local conditions

**Advances in Data Science** Leman Akoglu, Emilio Ferrara, Mallayya Deivamani, Ricardo Baeza-Yates, Palanisamy Yogesh, 2018-11-28 This book constitutes the thoroughly refereed post conference proceedings of the Third International Conference on Advances in Data Science ICIIT 2018 held in Chennai India in December 2018 The 11 full papers along with 4

short papers presented were carefully reviewed and selected from 74 submissions The papers are organized in topical sections on data science foundations data management and processing technologies data analytics and its applications

**Proceedings of the 5th International Conference on Data Science, Machine Learning and Applications; Volume 2** Amit Kumar,Vinit Kumar Gunjan,Sabrina Senatore,Yu-Chen Hu,2024-10-19 This book includes peer reviewed articles from the 5th International Conference on Data Science Machine Learning and Applications 2023 held at the G Narayanamma Institute of Technology and Sciences Hyderabad on 15 16th December India ICDSMLA is one of the most prestigious conferences conceptualized in the field of Data Science Machine Learning offering in depth information on the latest developments in Artificial Intelligence Machine Learning Soft Computing Human Computer Interaction and various data science machine learning applications It provides a platform for academicians scientists researchers and professionals around the world to showcase broad range of perspectives practices and technical expertise in these fields It offers participants the opportunity to stay informed about the latest developments in data science and machine learning

Modern Irrigation Techniques Sumitra Varman,2025-01-03 Modern Irrigation Techniques opens the door to new and improved ways of irrigating lands aiming to increase productivity and enhance farmers lives We address the challenges of conventional irrigation methods present day vulnerabilities and current trends using case studies to bridge theory with real world applications Our book delves into factors affecting crop irrigation such as soil climate and resource availability providing comprehensive knowledge on modern irrigation technologies We ensure that equations and formulas are easy to understand and apply practically Covering a broad range of topics we guide readers through the intricacies of irrigation systems and their effective management This book is not only about irrigation technologies but also about making your setup successful With a focus on practicality and compatibility with readers thoughts this book provides valuable insights for better irrigation practices

*Proceedings of the 3rd International Conference on Communication, Devices and Computing* Biplab Sikdar,Santi Prasad Maity,Jagannath Samanta,Avisankar Roy,2022-02-18 This book provides insights into the 3rd International Conference on Communication Devices and Computing ICCDC 2021 which was held in Haldia India on August 16 18 2021 It covers new ideas applications and the experiences of research engineers scientists industrialists scholars and students from around the globe The proceedings highlight cutting edge research on communication electronic devices and computing and address diverse areas such as 5G communication spread spectrum systems wireless sensor networks and signal processing for secure communication error control coding printed antennas analysis of wireless networks antenna array systems analog and digital signal processing for communication systems frequency selective surfaces radar communication and substrate integrated waveguide and microwave passive components which are key to state of the art innovations in communication technologies

*Artificial Intelligence and Renewables Towards an Energy Transition* Mustapha Hatti,2020-12-17 This proceedings book emphasizes adopting artificial intelligence based and sustainable energy

efficiency integrated with clear objectives to involve researchers students and specialists in their development and implementation adequately in achieving objectives The integration of artificial intelligence into renewable energetic systems would allow the rapid development of a knowledge based economy suitable to the energy transition while fully integrating the renewables into the global economy This is how artificial intelligence has hand in by conceptualizing this transition and above all by saving time The knowledge economy is valued within the smart cities which are fast becoming the favorite places where the energy transition will take place efficiently and intelligently by implementing integrated approaches to energy saving and energy supply and integrated urban approaches that go beyond individual interventions in buildings or transport modes using information and communication technologies

**Smart Structures in Energy Infrastructure** Anita Khosla,Monika Aggarwal,2021-12-01 This book gathers selected high quality research papers presented at International Conference on Renewable Technologies in Engineering ICRTE 2021 organized by Manav Rachna International Institute of Research Studies Faridabad Haryana India during 15 16 April 2021 The book includes conference papers on the theme Computational Techniques for Renewable Energy Optimization which aims to bring together leading academic scientists researchers and research scholars to exchange and share their experiences and research results on all aspects of renewable energy integration planning control and optimization It also provides a premier interdisciplinary platform for researchers practitioners and educators to present and discuss the most recent innovations trends and concerns as well as practical challenges encountered and solutions adopted in the fields of smart structures in energy infrastructure

*Internet of Things: Usage And Application (UTeM Press)* Zakiah Ayop,Nurul Azma Zakaria, ISBN 978 967 2145 33 2 Authors Zakiah Ayop Nurul Azma Zakaria The main goal of this book is to encourage both researchers and practitioners to share and exchange their experiences and recent studies between academia and industry The overall objectives are To improve the awareness of readers about IoT concepts technologies and application areas To present case studies and innovative applications of the IoT To highlight and discuss the recent development and emerging trends in the IoT To propose new models practical solutions and technological advances of the IoT To address implementation issues and challenges

**Remote Sensing in Precision Agriculture** Salim Lamine,Prashant K. Srivastava,Ahmed Kayad,Francisco Munoz Arriola,Prem Chandra Pandey,2023-10-20 Remote Sensing in Precision Agriculture Transforming Scientific Advancement into Innovation compiles the latest applications of remote sensing in agriculture using spaceborne airborne and drones geospatial data The book presents case studies new algorithms and the latest methods surrounding crop sown area estimation determining crop health status assessment of vegetation dynamics crop diseases identification crop yield estimation soil properties drone image analysis for crop damage assessment and other issues in precision agriculture This book is ideal for those seeking to explore and implement remote sensing in an effective and efficient manner with its compendium of scientifically and technologically sound information Presents a well integrated collection of chapters with quality consistency

and continuity Provides the latest RS techniques in Precision Agriculture that are addressed by leading experts Includes detailed yet geographically global case studies that can be easily understood reproduced or implemented Covers geospatial data with codes available through shared links *Cloud IoT Systems for Smart Agricultural Engineering* Saravanan Krishnan,J Bruce Ralphin Rose,N R Rajalakshmi,Narayanan Prasanth,2022-02-13 Agriculture plays a vital role in a country's growth Modern day technologies drive every domain toward smart systems The use of traditional agricultural procedures to satisfy modern day requirements is a challenging task Cloud IoT Systems for Smart Agricultural Engineering provides substantial coverage of various challenges of the agriculture domain through modern technologies such as the Internet of Things IoT cloud computing and many more This book offers various state of the art procedures to be deployed in a wide range of agricultural activities The concepts are discussed with the necessary implementations and clear examples Necessary illustrations are depicted in the chapters to ensure the effective delivery of the proposed concepts It presents the rapid advancement of the technologies in the existing agricultural model by applying the cloud IoT techniques A wide variety of novel architectural solutions are discussed in various chapters of this book This book provides comprehensive coverage of the most essential topics including New approaches on urban and vertical farming Smart crop management for Indian farmers Smart livestock management Precision agriculture using geographical information systems Machine learning techniques combined with IoT for smart agriculture Effective use of drones in smart agriculture This book provides solutions for the diverse domain of problems in agricultural engineering It can be used at the basic and intermediary levels for agricultural science and engineering graduate students researchers and practitioners **Recent Developments in Electrical and Electronics Engineering** Poonam Singhal,Sakshi Kalra,Bhim Singh,R. C. Bansal,2023-04-28 This book contains cutting edge research content presented by researchers engineers developers and practitioners from academia and industry at the International Conference on Recent Developments in Electrical and Electronics Engineering ICRDEEE 2022 The materials in the book include theory and applications for different areas of Electrical and Electronics Engineering The topics covered include power systems and protection energy electric vehicles smart grid semiconductor technologies electrical machines and drives control systems with artificial intelligence etc The content is useful for researchers professionals and academicians in understanding current research trends findings and future scope of research in electrical and electronics engineering models Recent Trends in Agriculture towards Food Security & Rural Livelihood Volume II Dr D Vengatesan Dr M Kavaskar Dr P Ramesh Dr T Selvamuthukumaran Dr S ArivudainambiDr.Santha Govind,

The book delves into Micro Controller Based Automatic Plant Irrigation System. Micro Controller Based Automatic Plant Irrigation System is a vital topic that must be grasped by everyone, from students and scholars to the general public. This book will furnish comprehensive and in-depth insights into Micro Controller Based Automatic Plant Irrigation System, encompassing both the fundamentals and more intricate discussions.

1. The book is structured into several chapters, namely:
    - Chapter 1: Introduction to Micro Controller Based Automatic Plant Irrigation System
    - Chapter 2: Essential Elements of Micro Controller Based Automatic Plant Irrigation System
    - Chapter 3: Micro Controller Based Automatic Plant Irrigation System in Everyday Life
    - Chapter 4: Micro Controller Based Automatic Plant Irrigation System in Specific Contexts
    - Chapter 5: Conclusion
  2. In chapter 1, this book will provide an overview of Micro Controller Based Automatic Plant Irrigation System. This chapter will explore what Micro Controller Based Automatic Plant Irrigation System is, why Micro Controller Based Automatic Plant Irrigation System is vital, and how to effectively learn about Micro Controller Based Automatic Plant Irrigation System.
  3. In chapter 2, the author will delve into the foundational concepts of Micro Controller Based Automatic Plant Irrigation System. The second chapter will elucidate the essential principles that need to be understood to grasp Micro Controller Based Automatic Plant Irrigation System in its entirety.
  4. In chapter 3, the author will examine the practical applications of Micro Controller Based Automatic Plant Irrigation System in daily life. This chapter will showcase real-world examples of how Micro Controller Based Automatic Plant Irrigation System can be effectively utilized in everyday scenarios.
  5. In chapter 4, the author will scrutinize the relevance of Micro Controller Based Automatic Plant Irrigation System in specific contexts. This chapter will explore how Micro Controller Based Automatic Plant Irrigation System is applied in specialized fields, such as education, business, and technology.
  6. In chapter 5, this book will draw a conclusion about Micro Controller Based Automatic Plant Irrigation System. The final chapter will summarize the key points that have been discussed throughout the book.
- This book is crafted in an easy-to-understand language and is complemented by engaging illustrations. It is highly recommended for anyone seeking to gain a comprehensive understanding of Micro Controller Based Automatic Plant Irrigation System.
