Midas Touch English Edition:

The Triumph of Venus Jeanne Lorraine Schroeder, 2004-02-23 The theory of law and economics that dominates American jurisprudence today views the market as rational and individuals as driven by the desire to increase their wealth It is a view riddled with misconceptions as Jeanne Lorraine Schroeder demonstrates in this challenging work which looks at contemporary debates in legal theory through the lens of psychoanalysis and continental philosophy Through metaphors drawn from classical mythology and interpreted via Lacanian psychoanalysis and Hegelian philosophy Schroeder exposes the hidden and repressed erotics of the market Her work shows how the predominant economic analysis of markets and the standard romantic critique of markets are in fact mirror images reflecting the misconception that reason and passion are inalterably opposed

The Golden Age Chris Murray,Elizabeth Rogers,Jeffrey W. Smith,2016-09-23 This volume investigates the diverse applications and conceptions of the term The Golden Age The phrase resonates with the theme of nostalgia which is popularly understood as a wistful longing for the past but which also denotes homesickness and the unrecoverability of the past While the term Golden Age typically conjures up idealised visions of the past and gestures forward to utopian visions of future golden ages the idea of nostalgia is suggestive of a discontented present The Golden Age and nostalgia are therefore related ideas but are also partly in conflict with one another as many nostalgic sentiments are not idealised and may indeed be dark ironic or self aware There are of course many other ways to characterise the relationship between the Golden Age and nostalgia and the tension between the two can produce myths and

romantic idylls or in religious terms images of prelapsarian innocence or dogmas relating to values associated with childhood The Golden Age is also often used to refer to specific respected periods of cultural production in all kinds of literature and visual media Indeed nearly every period genre nation and cultural form has some kind of mythic often illusory Golden Age against which it is defined and in which nostalgia often plays a part This collection interrogates the notion of the Golden Age and its connection to feelings of nostalgia from a range of interdisciplinary perspectives with a strong focus on the relationship between word and image It will interest scholars working on the subject of the Golden Age nostalgia particularly in English literature film studies comics studies history and the fine arts **New Perspectives on Land**

Registration Amy Goymour, Stephen Watterson, Martin Dixon, 2018-02-08 The Land Registration Act 2002 has been in force for almost fifteen years When enacted the legislation which replaced the Land Registration Act 1925 was intended to offer a clear and lasting framework for the registration of title to land in England and Wales However perhaps confounding the hopes of its drafters the legislation's interpretation and application has since generated many unanticipated problems which demand attention In this book's twenty chapters leading land law scholars Law Commissioners past and present judges and Registry lawyers unpick key technical controversies and expose underlying theoretical and policy concerns Core issues addressed in these chapters include the legitimate ambitions of registration regimes the nature and security of title afforded by registration the resolution of priority disputes affecting registered titles the relationship between the general law and the registration regime and new challenges presented by modern technological developments Proceedings of the High

School Conference of ... Horace Adelbert Hollister, 1929 **Proceedings of the High School Conference of November 1910-November 1931**, 1929 *'Who the Devil taught thee so much Italian?'* Jason Lawrence, 2013-07-19 This book offers a comprehensive account of the methods and practice of learning modern languages particularly Italian in late sixteenth and early seventeenth century England It is the first study to suggest a fundamental connection between language learning habits and the techniques for both reading and imitating Italian materials employed by a range of poets and dramatists such as Daniel Drummond Marston and Shakespeare in the period The widespread use of bilingual parallel text instruction manuals from the 1570s onwards most notably those of the Italian teacher John Florio highlights the importance of translation in the language learning process This study emphasises the impact of language learning translation on contemporary habits of literary imitation in its detailed analyses of Daniel's sonnet sequence Delia and his pastoral tragicomedies and Shakespeare's use of Italian materials in Measure for Measure and Othello *The Critic* Jeannette Leonard Gilder, Joseph Benson Gilder, 1888 **The Political and Economic Writings of Daniel Defoe Vol 7** W R Owens, P N Furbank, J A Downie, D W Hayton, John McVeagh, 2024-08-01 This collection gathers together a number of Daniel Defoe's non-fiction writings on political and economic issues The selection is designed to reflect the numerous facets of Defoe's economic and political thought Each of the eight volumes includes an introduction
