curriculum has no separate teacher s manual nor is it scripted The introduction to each chapter has some notes for the teacher concerning the material in the chapter All the instruction is written directly to the student in the worktext and there also exist accompanying videos where you can see Maria herself teach the material After each chapter introduction you will find a list of Internet links and resources games quizzes animations etc that can be used for fun illustrations and further practice For multiplication tables and division facts you can use our online practice program free The other parts of Math Mammoth International Version Grade 4 curriculum are grade 4 A student worktext grade 4 answer keys and grade 4 tests and cumulative revisions
