Strategizing Societal Transformation Vladimir L. Kvint, Sergey D. Bodrunov, 2022-11-11 This book is dualistic in its nature it seeks to combine two approaches to the analysis and assessment of societal development prospects and to strengthen the capacity of each The book describes the strategic development of regional economies as well as worldwide trends The theory and methodology of strategy should extend much further and deeper than what is obvious to everyone Strategy is aimed at the effective movement of the object of strategizing to the reality that does not exist and will only begin to form within a certain period of time which is determined by long term prospects One approach has at its core managing the information and technological development of society its social and economic transformation through developing and implementing a particular strategy with a concept or doctrine of the planned guidelines as its first stage Strategizing the information technological transformation of society is proved to be most effective when it covers long term development periods which will lead to significant and even fundamental changes in the values and priorities of socio economic development Another approach described in this volume which is implemented in conjunction with strategizing is connected to the conceptual understanding of long term development The concept of noonomy represents a complex theory of transformation based on technological change and the resulting shifts in social organization It demonstrates not only trends but also qualitative social shifts to which these transformations lead In this way the approach put forward in the theory of noonomy makes it possible to anticipate and evaluate distant horizons of social development and to grasp the

transitions from one stage to the next Employing the concept of noonomy in the processes of strategy is a prognostic phase immediately preceding the processes of strategy and creating a reference point for them This book represents the unique strategy concepts V L Kvint and noonomy S D Bodrunov have been brought together The idea of uniting the authors views on the problems of civilizational development has a common scientific platform the definition of long term goals and the choice of economic and strategic tools to achieve them This book summarizes the authors main approaches to the issues at hand to facilitate the applied problem set by the authors which is to demonstrate the productivity of synthesizing these approaches to the study of societal development patterns for subsequent use in their theoretical and practical implementation *The Deal*,2010 **Security Analytics** Mehak Khurana,Shilpa Mahajan,2022-06-24 The book gives a comprehensive overview of security issues in cyber physical systems by examining and analyzing the vulnerabilities It also brings current understanding of common web vulnerabilities and its analysis while maintaining awareness and knowledge of contemporary standards practices procedures and methods of Open Web Application Security Project This book is a medium to funnel creative energy and develop new skills of hacking and analysis of security and expedites the learning of the basics of investigating crimes including intrusion from the outside and damaging practices from the inside how criminals apply across devices networks and the internet at large and analysis of security data Features Helps to develop an understanding of how to acquire prepare visualize security data Unfolds the unventured sides of the cyber security analytics and helps spread awareness of the new technological boons Focuses on the analysis of latest development challenges ways for detection and mitigation of attacks advanced technologies and methodologies in this area Designs analytical models to help detect malicious behaviour The book provides a complete view of data analytics to the readers which include cyber security issues analysis threats vulnerabilities novel ideas analysis of latest techniques and technology mitigation of threats and attacks along with demonstration of practical applications and is suitable for a wide ranging audience from graduates to professionals practitioners and researchers
