No Miracles Needed Mark Z. Jacobson, 2023-02-02 The world needs to turn away from fossil fuels and use clean renewable sources of energy as soon as we can Failure to do so will cause catastrophic climate damage sooner than you might think leading to loss of biodiversity and economic and political instability But all is not lost We still have time to save the planet without resorting to miracle technologies We need to wave goodbye to outdated technologies such as natural gas and carbon capture and repurpose the technologies that we already

have at our disposal We can use existing technologies to harness store and transmit energy from wind water and solar sources to ensure reliable electricity heat supplies and energy security Find out what you can do to improve the health climate and economic state of our planet Together we can solve the climate crisis eliminate air pollution and safely secure energy supplies for everyone
