Computational Intelligence Kurosh Madani, António Dourado, Agostinho Rosa, Joaquim Filipe, Janusz Kacprzyk, 2015-11-19. The present book includes a set of selected extended papers from the fifth International Joint Conference on Computational Intelligence (IJCCI 2013) held in Vilamoura, Algarve, Portugal, from 20 to 22 September 2013. The conference was composed of three co-located conferences: The International Conference on Evolutionary Computation Theory and Applications (ECTA), the International Conference on Fuzzy Computation Theory and Applications (FCTA), and the International Conference on Neural Computation Theory and Applications (NCTA). Recent progresses in scientific developments and applications in these three areas are reported in this book. IJCCI received 111 submissions from 30 countries in all continents. After a double-blind paper review performed by the Program Committee, only 24 submissions were accepted as full papers and thus selected for oral presentation, leading to a full paper acceptance ratio of 22%. Additional papers were accepted as short papers and posters. A further selection was made after the Conference based also on the assessment of presentation quality and audience interest, so that this book includes the extended and revised versions of the very best papers of IJCCI 2013. Commitment to high quality standards is a major concern of IJCCI that will be maintained in the next editions, considering not only the stringent paper acceptance ratios but also the quality of the program committee, keynote lectures, participation level, and logistics.
