

1. INTRODUCTION

1.1 Intended use and unintended use

This AEG appliance is intended to be used to store, heat and provide drinking water. The appliance should only be used in household and similar environments, such as:

- In shops, offices and other similar working environments;
- In farm houses;
- By clients in hotels, motels and other residential type environments;
- In bed and breakfast type environments.

The appliance should not be used:

- For commercial or industrial purposes;
- In vehicles or on board ships or aircrafts;
- In locations with the presence of a corrosive or explosive atmosphere;
- For medical purposes;

The appliance may only be used according to the instructions as described in this manual. All use other than described in this manual is seen as unintended use.

1.2 General working principle

This AEG appliance stores, heats and provides boiling drinking water in addition to cold and warm water.

To supply boiling water, cold water flows from the cold water supply to the boiler, where it is heated to 100 °C. From the boiler the boiling water flows to the tap.

The cold water also flows from the cold water supply directly to the cold water inlet on the tap.

There are two ways to provide the tap with warm water:

- Warm water can be supplied by connecting the warm water supply, if available, to the warm water inlet on the tap. This situation is named the solo configuration.
- Cold water and boiling water from the boiler can be mixed with the mixing valve. The mixed water outlet of the mixing valve can be connected to the warm water inlet on the tap. This situation is named the combi configuration.

Best Collection of Essays NCTE Awards for Excellence in Technical and Scientific Communication

Effective Documentation is a major sourcebook that offers technical writers editors teachers and students of technical communication a wide variety of practical guidelines based on often hard to find research in the usability of printed and electronic media The book's eighteen chapters provide a wealth of material on such topics of current interest as the writing of design manuals research in cognitive psychology as applied to the design of user manuals and the organizing of manuals for hierarchical software systems Included are chapters by such well known scholars in the field as Philip Rubens Robert Krull Judith Ramey and John Carroll

Effective Documentation reviews the advice offered by other how to produce usable documentation books describing the different types of usability research and explaining the inherent biases of each type It goes beyond the actual design of textual and or electronic media to look at these designs in context giving advice on effective management good management is a requisite of good writing on the relationship between document design and product design and on how to find out who one's readers really are

Advances in the presentation of textual information are explained with suggestions on how to improve the usability of individual sentences and the design of entire books The concluding chapters discuss advances in the design and use of online information and offer valuable insights into the use of graphic information and the development and design of information communicated via electronic media
