Both the individual and the society must be understood. historical / contextual

What is a sociological imagination?

- What is the structure of a particular society as a whole? (How do its components relate to and differ from other societies; what are the meanings of its features)
- Where does this society stand in human history? (What changes, what stays the same)
- What different types of people characterise this society? (How are people constructed; who is powerful and powerless)
