## ABOUT THIS MANUAL

The **Infobulb** and **QuickFlash** should be read **BEFORE** this Manual. The **QuickFlash** refers to pages in this Manual.

This Manual:

- describes the software in full; it explains how to deliver speeches, create tunes, configure the Lightwriter® for special needs and so on.
- describes the Lightwriter® hardware in general terms - see the **QuickFlash** supplied with your Lightwriter® for details about your model.
- is designed for reference, **NOT** for everyday use.
- applies to all the models mentioned above.
- does not apply to models SL5 or SL55.
- applies to earlier V5 software-versions, with minor differences.

This Manual provides full details for advanced users and therapists or carers. Do not expect to understand this Manual on its own. Have the Lightwriter® in front of you, and try the things that you need to learn. Some models contain a 'scanner' (which allows users without hand-control to operate the Lightwriter® via a switch); where this Manual says 'press' a key, you can 'select' the same 'virtual-key' on the scan-screen, and the greater part of this book will apply (eg pressing the M2M-key or selecting ' ' on the screen have the same result). Scanning is dealt with in Section 6.

Throughout the Manual, words written in **bold** refer to something on the Lightwriter®.

The Table-of-Contents on the following pages summarises what the Lightwriter® can do.

An index to 'keywords' and to the various messages that may appear on the display is provided inside the back cover.

**Statement of Intended Use** - see Section 8.

**Decontamination** - see Section 8.
