McDonagh, Melvin J. Vincent, 1950 **Educational Sociology** Daniel Harrison Kulp, 1932

Personality and Social Adjustment Ernest Rutherford Groves, 1923 **Social Research** George Andrew Lundberg, 1929 **An Introduction to the Social Sciences** Emory Stephen Bogardus, 1913 **A History of Social Thought** Emory Stephen Bogardus, 1922 **Politics and Science** William Esslinger, 1955 SCOTT Copy 1 From the John Holmes Library collection **Teaching and Learning in the Primary School** ANDREW POLLARD, Jill Bourne, 2002-09-26 This key sourcebook highlights important current topics and debates in primary education and provides practical insights into meeting the challenges of primary teaching **University of Southern California Publications**, 1913

Introduction to the Social Sciences Emory Stephen Bogardus, 1913 **When Teaching Becomes Learning** Eric Sotto, 2007-03-15 Intended to help anyone who teaches this book has something of a cult following Drawing on extensive teaching experience the author presents a personal account of good practice written in an engaging and accessible style and based on extensive scholarly sources Part I Learning and Part II Teaching complement one another and the book as a whole offers an insight into how to teach in any set of circumstances It does so without being prescriptive instead helping teachers to think through their own problems and situations As a result *When Teaching Becomes Learning* is a book to which teachers will return on countless occasions This edition has been updated throughout and now has 2 new chapters *Reflections of Educational Technology* and *Why Teach* Chapters are now also divided up so they are each shorter and more user friendly than before **Forgotten Founders and Other Neglected Social Theorists** Christopher T. Conner, Nicholas M. Baxter, David R. Dickens, 2019-05-14 This edited volume highlights the work of ten forgotten and neglected social theorists in the hope of reinvigorating interest in their work and their potential contributions to the analysis of contemporary social

issues Each chapter includes a brief biographical sketch an overview of the selected theorist s work and significance and the relevance of their work to one or more contemporary social issues While other similar texts tend to focus primarily on intellectual biography our emphasis here is on the scholar s theories and their application to contemporary social issues We provide a contextualization of each scholar s work using present day social issues or problems Many of these individuals played a significant role in the development of sociology Our hope is to provide a resource that will help re integrate these marginalized social theorists rescuing them from obscurity and elevating their status

The Politics of Protest ,2010-02 Report submitted by the director of the Task Force on Violent Aspects of Protest and Confrontation of the National Commission on the Causes and Prevention of Violence Taken from Library Hub Discover

Group Life and Social Problems Ernest Hugh Shideler,1929 **Social Progress** Joyce Oramel Hertzler,1928 *The Science of Sacrifice* Susan L. Mizruchi,1998-05-24 From ritual killings to subtle acts of self denial the practice and rhetoric of sacrifice has a special centrality in modern American literature In a compelling interdisciplinary investigation Susan Mizruchi portrays an episode in American cultural history when the literary movement of realism and the fledgling field of sociology both converged in the belief that sacrifice is basic to sociality This is a book about the fascination that sacrifice held for writers principally Herman Melville Henry James and W E B Du Bois and also for those who articulated the main tenets of modern social theory an inquiry that eventually spans historical events such as public lynchings and the political scapegoating of immigrants a century ago The execution in Billy Budd Sailor the death of Du Bois s first born son in *The Souls of Black Folk* Henry James s preoccupation with renunciation and scapegoating and the self denying working classes of Norris and Stein all illustrate repeated stagings of sacrificial rituals from a Biblical past For Mizruchi the peculiar persistence of this aesthetic construct becomes a guide to a rich theological and social scientific tradition distinctive to the late nineteenth and early twentieth centuries and including such influential works as Smith s *Lectures on the Religion of the Semites* Frazer s *Golden Bough* and Ross s *Sin and Society* The major features of sacrifice its original association with spiritual doubt its function as a form of spiritual economics that sustained divisions between the fortunate and the bereft and its role in fixing boundaries between aliens and kin held strong symbolic value for writers struggling to reconcile faith with rationalism and communal coherence with capitalist expansion Mizruchi eloquently demonstrates how the conceptual power of sacrifice made it a key mediator of cultural change from the decline of sympathy and the significance of race in an emerging multicultural society to the revival of maternal self sacrifice
