**Bastards** Dylan Ratigan,2012-01-10 The host of the eponymous MSNBC show Dylan Ratigan offers a bold and original post partisan program to resuscitate the American Dream At a time of deep concern with the state of America s economy and government it seems that all the media can give us is talking or screaming heads who revel in partisan brinkmanship Then there s Dylan Ratigan an award winning journalist respected and admired across the political spectrum In Greedy Bastards he rips the lid off of our deeply crooked system and offers a way out Employing the nuanced reporting and critical analysis that have earned him so much respect Ratigan describes the five vampires that are sucking the nation dry including an educational system that values mediocrity above all else a healthcare system that is among the priciest and least effective infrastructures in the industrialized world a political system in which lobbyists write legislation a master slave relationship with our Chinese bankers and an addiction to foreign oil that has sapped our willingness to innovate In offering solutions to these formidable and entrenched obstacles he does nothing less than lay the groundwork for a political movement dedicated to tackling the rot at the heart of the country In its desperation America needs more than just endless stock tips and Wall Street navel gazing It needs passionate debate and smart policy and a hero to take on the establishment Dylan Ratigan is that hero and this is the book that will rally people behind him *Moving Health Sovereignty in Africa* Andrew F. Cooper,Hany

Besada,2016-04-15 Today s era of intense globalization has unleashed dynamic movements of people pathogens and pests that overwhelm the static territorial jurisdictions on which the governance provided by sovereign states and their formal intergovernmental institutions is based This world of movement calls for new ideas and institutions to govern people s health above all in Africa where the movements and health challenges are the most acute This book insightfully explores these challenges in ways that put the perspectives of Africans themselves at centre stage It begins with the long central and still compelling African health challenge of combating the pandemic of HIV AIDS It then examines the global governance responses by the major multilateral organizations of the World Bank and the World Trade Organization and the newer informal flexible democratically oriented ones of the Group of Eight It also addresses the compounding health challenge created by climate change to assess both its intensifying impact on Africa and how all international institutions have largely

failed to link climate and health in their governance response It concludes with several recommendations about the innovative ideas and institutions that offer a way to closing the great global governance gaps and thus improving Africans health and that of citizens beyond **Sustaining Industrial Competitiveness after the Crisis** L.
