Tharun Raj, The CA profession is a dizzy road with thorns for an ultimate bliss in life The student has to undergo intensive coaching and learn many new concepts which are of divergent nature say it be accounts audit tax costing law etc and particularly students at Final level feels it difficult to absorb as they have to undergo practical training and attend classes On my interaction with many students at Final level I came to know that they are very much in need of a simple indirect tax book covering all topics which helps them to revise and re Wise the subject from time to time during their idle time in travelling waiting at ITO office etc As a faculty it is a herculean task for me to make things simple to the point and at the same time ensuring that the essence of law in indirect tax is not missed It took me a considerable amount of time and I sincerely thank the almighty and my family for enabling me to put enough efforts required to bring this novel concept into your hands However the detailed information may not be available in this book but I ensured that the crux required for appearing exams is covered It is always advisable to read the main text and base this book as a revision exercise
