*Tuning into Mom* Michal Clements, Teri Lucie Thompson, 2011-10-15 American mothers are household CFOs in charge of an estimated 2.45 trillion in direct spending. They are also an important influence on other family members' buying habits. Many organizations have identified moms as an important customer group, but the broad age-based definitions these companies work with mask an array of different consumer behaviors. Written by two leading marketers, this book provides a new approach to understanding the American Mom market, examining the effect of age of the eldest child on women's values and attitudes to food, exercise, education, health, technology, and fashion. The authors examine the mom's influence on or control of the purchasing habits of children of all ages, from infants and toddlers to young adults. In doing so, it brings focus to the frequently overlooked purchase influence of moms on teenagers. The authors combine large-scale quantitative research of more than 4,700 mothers with qualitative case studies from individual participants. The authors also draw on decades of real-world experience to combine their research with implementable examples of best practice. Highly recommended for practitioners in retailing and product development, this book will also be a valuable supplemental text for college courses in consumer behavior and marketing strategy.

*Making a Difference* Linda Sullivan-Dudzic, Donna K. Gears, Kelli Leavell, 2010-01-06 It's time to build a bridge between early childhood programs and the K-3 system to ensure continued success for all children. This is the ultimate how-to manual for administrators and teachers who wish to maintain and maximize the gains children make in preschool. Sally Wingle, Preschool Teacher, Chelsea Community Preschool, MI. A great guide pointing in the right direction for starting a program. With the U.S. Department of Education's emphasis on early childhood education and new monies available from the stimulus plan, this book is a valuable resource. Cindy Luna, Principal, Northside ISD, San Antonio, TX. A 10-step plan for linking early childhood education to the K-3 system. The national push for improving young children's early learning experiences is no longer just about preschool. Now the focus is on strategic planning to increase achievement by reaching out to community early childhood education providers, establishing a strong PreK-3 foundation that connects early childhood education standards and goals to a K-3 system and ensuring that young learners receive high-quality instruction before kindergarten. Drawing on more than 20 years' success with a PreK-3 system in Washington state, the authors present a 10-step field-tested model that demonstrates how early childhood professionals and K-12 school leaders can outline a clear implementation plan for an integrated PreK-3 system that identifies both families and children's needs. Shares developmental information about individual learning skills and social/emotional development as children transition to kindergarten. Aligns resources, curriculum, instruction, and assessments. Anticipates challenges and celebrates successes. Invites input from superintendents, state officials, Head Start leaders, and Title I directors.
