researchers and theorists know about learning is that five types or dimensions of thinking are essential to successful learning
These are 1 positive attitudes and perceptions about learning 2 thinking involved in acquiring and integrating knowledge 3
thinking involved in extending and refining knowledge 4 thinking involved in using knowledge meaningfully and 5 productive
habits of mind Dimensions of Learning is a valuable tool for reorganizing curriculum instruction and assessment The authors

to help students construct meaning for declarative knowledge internalize procedural knowledge and see the relevance of
what they are expected to learn The authors provide many examples at the elementary and secondary classroom levels
